SAFETY AND WARNINGS

High voltages are used in the operation of this television receiver. Do not open the cabinet. Refer servicing to qualified service personnel.

Never stand on, lean on, or suddenly push the television or its stand. You should pay special attention to children. Serious injury may result if it falls.

To prevent fire or electrical shock hazard, do not expose the television receiver to rain or moisture.

Do not place your television on an unstable cart, stand, shelf or table. Serious injury to an individual and/or damage to the television may result if it falls.

Do not drop or push objects into the television cabinet slots or openings. Never spill any kind of liquid on the television receiver.

When the television receiver is not used for an extended period of time, it is advisable to disconnect the AC power cord from the AC outlet.

Do not block the ventilation holes on the back cover of the TV. Adequate ventilation is essential to prevent failure of electrical components.

Avoid exposing the television receiver to direct sunlight and other sources of heat. Do not stand the television receiver directly on other products which give off heat, e.g. video cassette players and audio amplifiers. Do not place naked flame sources, such as lighted candles on or near the television.

Do not trap the power supply cord under the television receiver's stand.

If the television is to be built into a compartment or similar enclosure, the minimum distances must be maintained. Heat build-up can reduce the life of your television, and can also be dangerous.
