www.volvocanada.com

For a lifetime, we have protected and celebrated life: of the occupants of our cars and of the world around them. Since our life began in 1927, we've learned a great deal about keeping people safe, through extensive testing and by researching real-life accidents. In fact, while the entire automobile industry makes use of Volvo safety concepts, we continue to develop new ones.

One of the things we've discovered is that although safety is enhanced through the interaction of sophisticated systems, it is most importantly the product of the relationship between car and driver. This bond is where dynamic driving begins. With this in mind, we have designed a Volvo that is not only thrilling to drive, but is also safer than ever before; for people and for the environment in which they live.

Maybe that's why, even after all these years, we still find safety so exciting. Welcome to the carmaker that never takes life for granted.

VOLVO. FOR LIFE

**THE VOLVO S60.
A PERFECT AFFAIR**

Its attraction is both logical and emotional. However you choose to measure it, the Volvo S60 is a compelling choice. It has a powerful persona and a seductive sense of style. It's a charismatic mix of art and engineering, and a sportsman through and through. If you're motivated by the purity of a car that's built for the love of driving, this one might be for you.

COME CLOSER

The driving environment is inviting. The seat is snug, the setting serene. There's space to stretch your legs, and a feeling of close proximity to the instruments. The clean lines of the cabin encompass an array of intuitive controls.

INTUITIVE DRIVING

Lean back and let the nearly infinite range of adjustments in the driver's seat offer pampering support. Everything you need is perfectly placed. With both hands on the wheel, you're in position to operate most of the car's controls – including the cruise control and the audio system.

RELAX

You're surrounded by a variety of convenient details, such as a central armrest that enhances comfort while adding practical features.

BUILT-IN NAVIGATOR

The optional Volvo Navigation System helps guide you to your destination, be it to the home of a friend in an unfamiliar city or to the welcome sight of a hotel along the way. The system's voice guidance and ergonomically designed controls help keep your attention on the road, secure in the knowledge that the road is taking you where you want to go.

Shown with optional equipment.

HOLD TIGHT

When it leaps into action you'll appreciate the sure-footed grip. The fuel-efficient five-cylinder engine generates an abundant flow of power. The drivetrain is a synthesis of strength and precision that provides an invigorating thrust. The Volvo S60 likes to perform for an audience, so choose your passengers carefully.

< ENGINE

The 5-cylinder engines form the core of your driving experience, providing power on demand. Cutting-edge technology and advanced engineering result in quick acceleration, but not at the expense of fuel consumption or emissions. The engine range spans from the 208 hp 2.5T to the exhilarating 257 hp T5 litre powerplant.

TRANSMISSION >

The engine's power reaches the road through a range of five or six-speed transmissions. To give you the best of both worlds, the optional Geartronic automatic transmission offers you the convenience of a fully automatic ride, or lets you shift through the gears manually for faster acceleration or to utilize the engine's braking capacity.

THE POWER OF FOUR

How about using all four wheels to their greatest potential? Volvo's active chassis with its unique Four-C technology continuously adjusts the suspension according to your driving style, speed and current road conditions. And to fully utilize the physics of all four wheels, there's Volvo's pre-charged AWD with Instant Traction™ – providing instant take-off and superior traction on all surfaces.

AWD WITH INSTANT TRACTION™

The Volvo S60 2.5T AWD employs Volvo's new pre-charged, electronically controlled all-wheel drive system – AWD with Instant Traction™. The difference is noticeable from the moment you start off – constant hydraulic pressure ensures that power is instantly divided among the wheels with the best traction. Wheel spin is minimized to provide immediate acceleration and reassuring stability in slippery conditions. During normal driving on straight dry roads, the front wheels receive up to 95% of the power for optimum stability and fuel economy. As the situation dictates, up to 50% of the power is instantly distributed to the rear wheels – depending on what is required to provide maximum stability and traction. And when cornering, the AWD system channels power where it's needed most to provide sharp turning and consistent stability throughout the curve.

COMFORT

For when the road is slippery or bumpy, when driving in town, or when you just want a relaxed ride. The Comfort chassis mode insulates the car's occupants from irregularities in the road surface. The system prioritizes low damping forces for smooth, gentle body movements and exceptional ride comfort.

SPORT

For a sports car feel and a lively yet comfortable drive. The system prioritizes rapid reactions. It results in decisive body movements – for more precise handling with quicker steering response and tenacious traction.

THE OPTIONAL ACTIVE CHASSIS WITH FOUR-C (CONTINUOUSLY CONTROLLED CHASSIS CONCEPT) (OPTIONAL ON T5)

The advanced chassis system monitors the car, road and driver 500 times per second and simultaneously adjusts each shock absorber for optimal handling and comfort. At the heart of the system is Volvo's semi-active suspension with continuously controlled Monroe-Öhlins shock absorbers – featuring the two dynamic chassis modes: Comfort and Sport. The shock absorbers, stability system, engine, brakes and steering all interact in an electronic system controlled by you. The shift from Comfort to Sport is done with the simple press of a button.

DRIVING AHEAD

Four-C continuously analyses a series of driving parameters, instantly adjusting each shock absorber to suit current conditions.

DRIVING ON BUMPY ROADS

The shock absorbers adjust immediately to provide the most comfortable ride possible – the system absorbs anything the road has to offer.

BRAKING

The moment you brake, the shock absorbers readjust to level the car throughout the braking process – providing enhanced control and maximum grip.

CORNERING

As the car enters a curve, the Four-C system restricts the shock absorbers so the car steers neatly into the bend, with speed and balance. When turning further, Four-C ensures that the car remains stable yet responsive throughout the curve.

R

**A NEW PINNACLE IN
PERFORMANCE TECHNOLOGY**

Imagine truly high performance, poised for action – ready for the moment you feel the urge to use it. This is the Volvo S60 R, a powerful yet refined machine to fulfill your every driving desire. To find out more, see the Volvo R brochure.

STIMULATING SAFETY

One thing the Volvo S60's preventive safety won't prevent is driving pleasure. Take the solid body for example. Its rigid structure helps absorb the forces that are the natural result of a spirited drive down a winding road. At times like this, you'll also appreciate the attentive steering, and STC or DSTC, with the advanced technology to help keep you on track.

ACTIVE STABILITY SYSTEM

STC (Stability and Traction Control) is an anti-spin system that improves traction in slippery situations by temporarily reducing engine torque. The enhanced version, DSTC (Dynamic Stability and Traction Control) also features an anti-skid function that brakes one or more of the wheels to help keep the car on course. Both systems react smoothly, efficiently, and instantaneously. For sportier driving or when driving in snow or sand, the anti-spin function can be reduced by the simple press of a button.

ANTI-LOCKING BRAKES WITH EBA

Designed to handle even the toughest tests, the power of ABS will not fade away when it's needed most. So you can put your foot down as you steer clear of trouble. And if you don't press the pedal hard enough, EBA (Emergency Brake Assistance) steps in with a power boost to help bring the car to a standstill in the shortest possible distance.

BI-XENON (OPTIONAL)

As darkness descends, you will appreciate the powerful and effective low and high beam headlights. And for an even broader and longer beam of light, you can add Bi-Xenon headlights. Integrated front and rear side-marker lights make it easier for other road-users approaching from the side to see your car.

Like its siblings, the Volvo S60 was conceived in the Volvo Safety Centre. One of the most advanced facilities of its kind, this is where we crash test every model and variant of car we make. Above and beyond countless computer simulations, we conduct over 400 full-scale collisions each year. These tests are based on what our researchers discover on the roads – we've investigated over 30,000 actual accidents since 1970. In fact, everything we do to make cars safer begins, and ends with real-life traffic situations. The Volvo S60 is testimony to this fundamental philosophy.

REAL-LIFE EXPERIENCE

This fixed test tunnel is used for collision tests inside the centre, and for rollover tests outdoors.

Within the centre, our 850-ton barrier can be positioned and configured to replicate the dangers of countless real-life traffic situations. What's more, this is where collisions take place between a vehicle entering the centre through the fixed tunnel and another entering from a pre-defined angle via the movable test track.

The movable test track allows us to test our vehicles on various outdoor surfaces. As the illustration shows, it even provides the opportunity of crashing into solid Swedish bedrock.

WHIPS (WHIPLASH PROTECTION SYSTEM)

Whiplash is one of the most common traffic injuries, often resulting from low-speed rear impacts. WHIPS helps reduce the risk of long-term whiplash injuries. Integrated into the front seat backrests, WHIPS supports the spine and neck in a controlled manner, and is triggered by impacts of sufficient force from behind.

IC AND SIPS

The inflatable curtain (IC), and a laterally mounted airbag – part of the Side Impact Protection System. These are further examples of the car's inherent safety systems developed at the Volvo Safety Centre in Sweden.

ORGANIC SAFETY

INTUITIVE REFLEXES

If a collision is unavoidable, a series of safety systems interact. Together with the airbag, the front seat belt pretensioners provide a two-phase response to help restrain the driver and front seat passenger during the course of a collision. The severity of the impact determines the level of airbag inflation.

BRIGHT EYES

Effective headlights and integrated high-pressure washers assure a powerful beam to help improve your night vision. For an even stronger, more focused beam of light, opt for Bi-Xenon headlights. And to help improve visibility in bad weather, options include a rain sensor that automatically starts the windshield wipers, and water-repellent front side windows and door mirrors.

MUSCULAR BODY

A web of beams and struts interact to help protect the occupants without adding unnecessary weight. This solid safety cage incorporates the Side Impact Protection System (SIPS), which distributes collision forces over a large part of the car's body. The sides are reinforced to offer added protection.

PERSONAL SECURITY

The S60 expands the scope of personal protection. Approach and Home Safe lighting with ground lighting in the outer side view mirrors illuminates the area around the car and allow greater safety when approaching or departing the vehicle. An electronic immobilizer and door locks that withstand most break-in attempts help protect

At Volvo, providing for your personal safety is a natural extension of our devotion to your driving safety. And so, a number of essential features have been added to the Volvo S60 to help you avoid threatening situations.

against theft. A security system with sensors in the doors, hood and trunk activate an alarm if someone should ever try to break into the vehicle. And in the event of trouble – press the panic button in the remote control and the alarm is sounded. The HomeLink remote garage door opener (included in the Convenience Package).

PROTECTIVE INSTINCT

Emergency Brake Assistance (EBA) will detect emergency braking and assist the driver in bringing the car to a stop. And the Whiplash Protection System (WHIPS) cradles the front seat occupants to help reduce the risk of whiplash injuries.

SENSE OF BALANCE

A broad stance and an advanced chassis promote stability, as do the AWD and Four-C options. The Stability and Traction Control system (STC) counteracts wheel spin by cutting power to a wheel until it regains traction. The available Dynamic Stability and Traction Control system (DSTC) also works to prevent skids by applying the brakes when needed. The steering is communicative yet firm. And for an enhanced sense of road feedback at highway speed, there's the option of a speed-dependent steering system.

RESILIENT FRAME

Built with high strength steel, the robust safety cage is an extremely rigid construction intended to form an enclosure around the occupants of the car. It is surrounded by the body's various deformation zones – resilient areas designed to absorb the forces generated in a collision.

FRIENDS ARE WELCOME

The carefully tailored cabin provides an air of discreet luxury. Beyond its ample space, the Volvo S60 offers superior seating comfort with some highly sensual materials. Add to this the contemporary design and functionality of a modern Swede, and you're driving a car that's never going to be left behind.

CONVENIENCE, FRONT ...

The centre armrest conceals numerous comforts. Fold back the upper section to access cup holders and front and rear tables. Fold back both the upper and lower sections to reveal a storage space for CDs, etc. that also provides rear seat passengers with a convenient table. Additionally, the roll-top storage compartment in front of the armrest contains easy-to-remove cup holders.

... AND BACK

Pampered by detail, rear-seat passengers will be almost as happy as the driver – even on long trips. A centre armrest ensures that refreshments are always easy to reach, and that small items are secure yet accessible.

COMFORTABLE KIDS

The integrated booster cushion helps to position a child 15–36 kg at the correct height for the seat belt. It also offers a high level of comfort and a great view. And when not in use, it's concealed in the centre rear armrest. (Retailer installed option.)

KINDRED SPIRITS

At Volvo the health and well-being of people has always been close at heart. The ability of our cars to protect occupants in accidents is a case in point. And in recent decades, this protective attitude has grown to encompass the air we breathe and the world we share. A Volvo is a conscientious choice – enjoy yours.

CONTRIBUTING TO OUR TOMORROW

Volvo Cars is an ambitious corporate citizen. We aim to maintain the equilibrium between the needs of our company – its people, customers and partners – and the society that has enabled us to build it. Care for the environment is a vital part of this effort, as are the far-reaching responsibilities towards the people of this world. Our annual Corporate Citizenship Report is available at www.volvocars.com/citizenship

CLEAN INSIDE

The Volvo S60 cabin filter prevents dust, exhaust particles and pollen from entering the car through its ventilation system. The IAQS (Interior Air Quality System) monitors incoming air for unhealthy gases. If necessary it will close the vents to ensure that cabin air does not become hazardous. This also has the added benefit of shutting out unpleasant odors. To make life more pleasant for people with allergies or asthma, all the interior fabrics meet the requirements of Oeko-Tex Standard 100 – an international standard ensuring that textiles and leather are free from allergy-inducing substances, health-impairing ingredients and harmful emissions. Additionally, numerous interior components are tested with respect to contact allergies.

CLEAN OUTSIDE

More efficient engines mean lower fuel consumption and, in turn, less emission of carbon dioxide – a greenhouse gas. Advanced emission controls eliminate between 95 and 98% of carbon monoxide, hydrocarbons and nitrogen oxides. The three-way catalytic converter is positioned to provide full exhaust conversion sooner after cold starting. All Volvo S60 engines meet stringent exhaust requirements and feature a catalytic coating of the radiator – PremAir®*. This converts up to 75% of the harmful ground-level ozone passing through the radiator into pure oxygen.

CLEAN FOR LIFE

Each Volvo begins its relationship with the environment at the earliest stage of design. It's built in one of the world's cleanest automobile factories, and 85% of it can be recycled. What's more, our environmental product information (EPI), allows you to choose a Volvo on the basis of its overall lifelong environmental performance. Find out more at www.volvocars.com/epi

*PremAir® is a trademark of Engelhard Corporation.

In a Volvo S60, the powertrain and chassis interact to provide a harmonious balance between response and comfort. The smooth, powerful five-cylinder engine is the very heart of the driving experience. You have access to the entire power output without pushing the engine, and response is instantaneous. Low internal friction and the very latest engine technology featuring electronic engine management and variable valve timing result in both dazzling performance and modest fuel consumption. At the same time, the engines also meet very strict emission standards.

THE S60 SELECTION

2.5 T

VOLVO S60 2.5T (208 HP)

Provides a beautifully balanced and spirited driving experience. The five-cylinder 2.5-litre turbocharged engine gives you access to full engine torque (236 lbs./ft.) from as low as 1500 rpm – so you can start off quickly and will seldom need to shift down, for example when passing slower moving vehicles. The very latest advances in engine technology with variable valve timing for both intake and exhaust valves ensures excellent performance and cleaner exhaust emissions under all driving conditions. With highly efficient combustion and emission control, this engine meets the very strict ULEV II emission requirements. A five-speed Geartronic automatic transmission is standard.

2.5 T AWD

VOLVO S60 2.5T AWD (208 HP)

Adds yet another dimension to your driving experience. Volvo's electronically-controlled all-wheel-drive system is optimized to provide superior roadholding and dependable tractive force whatever the road conditions. Drive is distributed at lightning speed between the front and rear wheels as conditions change – depending on what is needed to maintain driving stability and traction, even under difficult conditions. The experience is further enhanced by the sophisticated 208-hp five-cylinder light-pressure turbo engine, a five-speed Geartronic automatic transmission is standard.

T5

VOLVO S60 T5 (257 HP)

The most enticing front-wheel drive sport sedan that really inspires sporty driving. The newly developed high-efficiency 2.4-litre turbocharged engine provides sparkling performance and excellent pulling power throughout the entire range of engine speeds. The engine develops full torque (258 lbs./ft.) from just 2100 rpm, taking the car from 0 to 100 km/h in 6.5 seconds with a manual gearbox. High turbo boost pressure means extra power at high rpm – this is an engine that invites active driving. The turbocharger also has an over-boost feature that provides additional power when pushed, for instance when passing another vehicle. Continuously variable valve timing for both intake and exhaust valves (Dual CVT) contributes to the engine's alert response and uniform flow of power. It also helps the engine meet stringent ULEV exhaust emission requirements. This powerful engine is mated to a distinct six-speed manual transmission with a "sport shifter" gear selector or an optional five-speed Geartronic automatic transmission. The T5 also features upgraded brakes and 17" alloy wheels.

STANDARD FEATURES

SAFETY:	S60 2.5T	S60 2.5T AWD	S60 T5
Anti-submarine seats	●	●	●
Daytime running lights (halogen semi-sealed with replaceable bulb)	●	●	●
Driver and front passenger supplemental restraint system – dual-threshold airbags	●	●	●
Dynamic stability and traction control (DSTC)	N/A	P	P
Emergency trunk release	●	●	●

2-Speed windshield wipers with intermittent cycle	●	●	●

● = Standard ○ = Option P = Package

PREMIUM PACKAGE (2.5T, 2.5T AWD)*

A Volvo offers you long, relaxed drives and more spirit in your daily life. The Premium Package will provide you with some necessities for that extra ambience and convenience.

- Leather-trimmed handbrake
- Leather seating surfaces
- Memory for driver seat and rearview mirrors (2.5T)
- Power driver and passenger seat (2.5T)
- Power passenger seat (2.5T AWD)

* May not be combined with Sport package.

SPORT PACKAGE*

Inspiring dynamics are always at hand, whenever you're in the mood. And with the Sport Package, you'll further enhance your driving experience.

- Bi-Xenon headlights (2.5T AWD, T5)
- Dynamic stability and traction control system, DSTC (2.5T AWD, T5)
- Four-C active chassis (T5)
- Front fog lights (2.5T, 2.5T AWD)
- Leather-trimmed handbrake (2.5T, 2.5T AWD)
- Memory for driver seat and rearview mirrors (2.5T)
- Power driver and passenger seat (2.5T)
- Power passenger seat (2.5T AWD)
- Speed sensitive steering
- Sport seats with leather seating surfaces (2.5T, 2.5T AWD)
- 17" ORESTES alloy wheels w/235/45/17 (2.5T)
- 17" ORPHEUS alloy wheels w/235/45/17 (2.5T AWD)
- 18" NEBULA alloy wheels w/235/40/18 (T5)

* May not be combined with Premium package.

CONVENIENCE PACKAGE

The wide range of considerate and practical features makes life with your Volvo a truly enjoyable experience. And by adding the Convenience Package, you expand your freedom even more.

- Auto dimming mirror (2.5T, 2.5T AWD)
- Dashboard cup holder
- Grocery bag holder
- HomeLink® (2.5T, 2.5T AWD)
- Level sensor
- Mass movement sensor
- Rain sensor
- Retractable side view mirrors

WHISPER IN YOUR EAR

Because music is an integral part of your lifestyle, our audio systems, the HU-650 and the optional HU-850 Premium Sound system are specifically configured for the acoustics of the Volvo S60's interior. The systems make music worth listening to – whether you've got somewhere to drive or not. Like any high-end equipment, there are several alternatives for expanding and varying sound and function.

MUSIC AT YOUR FINGERTIPS

The advanced RDBS radio with its built-in CD player or 6-CD changer, is conveniently controlled from the centre console. The steering wheel keypad enables you to operate the audio system without taking your eyes off the road.

DOLBY SURROUND PRO LOGIC** II

The latest generation Dolby® Surround system, with centre speaker and digital sound processor, recreates authentic sound and ensures that everyone in the car hears the music with the same natural quality. The result is a clear open sound with a strong sense of presence, only available in a Volvo.

PREMIUM SOUND (OPTIONAL)

Uncompromising sound of absolute world class for the discerning music lover. Volvo's most sophisticated audio system with thirteen Premium Sound speakers, an advanced Premium Sound amplifier and Dolby Surround Pro Logic® II. The speakers' power durability and excellent transient reproduction in combination with the amplifier's high capacity result in exceptional resolution and perfect dynamics. The Dolby® Surround system offers a uniquely realistic and three-dimensional audio experience whether you are sitting in the front or rear seats.

Premium Sound includes:

- HU-850 RDBS radio with built in 6-CD changer
- 13 Premium Sound speakers
- Dolby Surround Pro Logic® II with centre speaker and digital sound processor
- Premium Sound amplifier, 4x75 W plus 25 W for the centre speaker
- Premium Sound digital sound processor

Can be supplemented with a separate 10-CD changer and CD storage in the glove compartment.

* The Dolby and Pro Logic trademarks are the property of Dolby Laboratories.

HIGH PERFORMANCE (STANDARD T5)

Offers an even more powerful sound experience. With up to nine High Performance loudspeakers and a separate High Performance amplifier. The loudspeakers have more powerful magnets, larger coils and fibreglass cones. This promotes excellent transient reproduction, high power durability and low distortion – translating quite simply into superb sound. Also available with Dolby Surround Pro Logic® II*. The advanced RDBS radio has a built-in 6-CD changer or a single-CD player.

High Performance is available in a choice of two variants:

- HU-850 RDBS radio with built in 6-CD changer, Dolby Surround Pro Logic® II, 9 High Performance loudspeakers, High Performance digital sound processor and a separate High Performance 4x50 W amplifier plus 25 W for the centre loudspeaker.
- HU-650 RDBS radio with built-in single-CD player, 8 High Performance loud-speakers, High Performance digital sound processor and a separate High Performance 4x50 W amplifier.

Can be supplemented with a separate 10-CD changer and CD storage in the glove compartment.

PERFORMANCE (STANDARD 2.5T, 2.5T AWD)

An easy to use and great-sounding standard system with RDBS radio, built-in single-CD player and four speakers.

The following are included in the standard equipment:

- HU-650 RDBS radio with built in 4x25 W amplifier and single-CD player
- 4 speakers

Can be supplemented with a separate 10-CD changer and CD storage in the glove compartment.

RDBS features text-messaging via Radio Data Broadcast System.

● Speaker

FINISHING TOUCHES

Customize the look to suit your taste and temperament. Select a design from the aluminum wheels beside, then add exterior trim details until your Volvo S60 is as sporty or as elegant as you'd like it.

8x18" NEBULA alloy wheels
(Sport Package T5)

7.5x17" ORESTES alloy wheels
(Sport Package 2.5T)

7.5x17" ORPHEUS alloy wheels
(Sport Package 2.5T AWD, std. T5)

6.5x16" ELECTRA alloy wheels
(std. 2.5T AWD)

6.5x16" ECHO alloy wheels
(std. 2.5T)

SPOILER WING
Colour-coordinated.

ALUMINUM SILL MOULDING, FRONT

INTERIOR SELECTIONS

Choose from a number of specially designed options to create the interior that best suits you. Then enjoy your creation every time you enter your car.

Leather-trimmed steering wheel (std.)

Spaceball Sports gear-shift lever, aluminum with leather-trimmed gear-lever knob (manual, T5)

Leather-trimmed gear-lever knob (automatic)

Mesh aluminum trim (std. T5, opt. 2.5T, 2.5T AWD)

Black Mesh aluminum trim (std. T5)

Walnut wood trim (opt. 2.5T, 2.5T AWD)

TAUPE INTERIOR

Select leather Light Taupe upholstery, Walnut wood trim, leather-trimmed steering wheel and gear-lever knob.

FACTORY-INSTALLED OPTIONS

The sense of quality and care – and knowing that you get the Volvo that suits your lifestyle. Customize your car with the options that best meet your demands and desires, and you'll soon be behind the wheel of your individually tailored S60.

POWER GLASS SUNROOF

Makes the interior feel extra light and airy. Touch a button – and you open or close the sunroof. And if the sun is too strong, you can always close the built-in sun shade.

BI-XENON HEADLIGHTS

Give you even more effective low and high beams, with a broader, longer and more pleasant beam throw under all lighting conditions. Low beam height is adjusted automatically to provide the best possible light pattern when the car is heavily loaded.

VOLVO NAVIGATION SYSTEM

The Volvo Navigation System can guide you anywhere with precise audio and visual directions. Using the global positioning system, a liquid crystal 6.5-inch display shows your location on a map and plots the best route. Controls are conveniently located on the steering wheel. When not in use, the screen retracts into the dashboard. All map-based information is stored on DVD.

Also available as an accessory.

DSTC ANTI-SKID SYSTEM (DYNAMIC STABILITY AND TRACTION CONTROL)

Enhances driving stability on slippery roads. The system automatically counteracts a skid as it starts, well before you even notice. Any skidding tendency is countered smoothly and effectively by the system braking one or more wheels or reducing engine power as necessary to retain control. The system also includes EBA (Emergency Brake Assistance), which helps shorten the stopping distance in emergency braking.

ACCESSORIES

Volvo's accessories help you make your S60 even more suited to your personal needs. They are the only ones that have been tested to meet Volvo's exacting safety, quality and environmental requirements. You can also rest assured they're a perfect match to the technology and design of your Volvo.

FOR DRIVING FREEDOM

- Ashtray
- Business bag organizer
- CD holder glove compartment
- Cup holders, tunnel console
- Electric cooler box
- Front/rear parking assistance
- Holder for sunglasses
- Navigation system

MEET THE FAMILY

Like most, our family has a number of colourful personalities. Rooted in Volvo's heritage, the common bond is a passion to protect and celebrate life. If you'd like to get better acquainted, see them all at www.volvocanada.com

S

VOLVO S40 The compact and energetic sedan.

V

VOLVO V50 The Sportswagon – flexible, compact and full of zest.

XC

VOLVO XC70 The rugged yet stylish all-roader.

VOLVO S60 The sports sedan worth getting passionate about.

VOLVO V70 The genuine family wagon – highly competitive yet comfortably versatile.

VOLVO XC90 The versatile SUV that takes you almost anywhere with grace.

VOLVO S80 The premier sedan, meticulously engineered for superior driving comfort.

019 Black

612 Passion Red

426 Silver metallic

452 Black Sapphire metallic

455 Titanium Grey metallic

466 Barents Blue metallic

467 Magic Blue metallic

469 Lunar Gold metallic

PLEASE NOTE: It is not possible to reproduce exact original shades in this brochure. Ask your Volvo retailer to show you samples.

As part of our commitment to the environment, the paper used in this brochure is recycled, and colour choices were printed directly on the page. This eliminates the need for chemically treated colour chips. A small thing perhaps, but then, every little bit helps.

WELCOME TO OUR FAMILY

Being a Volvo owner is about more than just owning an automobile. It's about being treated in a caring, responsive and respectful manner every time you interact with our company. All of us are committed to making every aspect of your Volvo experience a rewarding one. So after the new car smell begins to fade, you'll still be excited about owning a Volvo.

**CARE
BY VOLVO**

VOLVO CAR FINANCIAL SERVICES CANADA

If you purchase or lease your Volvo through Volvo Car Financial Services Canada, you can take advantage of services designed to make financing simple and convenient. Quick Debit, for instance, enables you to have your monthly payment automatically debited from a designated bank account.

CARE BY VOLVO® ON CALL ROADSIDE ASSISTANCE

Whenever you need us, we're just a phone call away. Our nationwide network of retailers and authorized service providers are ready to assist. Whether you require roadside assistance or maps and routing information for your next trip, refer to your On Call Card and dial 1-800-263-0475 – anytime, day or night. Your complimentary four-year membership activates the moment you become a Volvo owner.

VOLVO NEW CAR WARRANTY

Your new car warranty provides comprehensive coverage for four years or 80,000 km's, whichever occurs first. Additional warranties cover corrosion, seat belts, the supplemental restraint system, emission systems, genuine Volvo replacement parts and genuine Volvo accessories. Should you encounter any problem with your Volvo, simply contact the nearest retailer for assistance. Where your warranty ends, Volvo Increased Protection (VIP) plans begin. To purchase the additional protection of a VIP plan, contact your local retailer.

VOLVO GENUINE SERVICE

The best way to ensure superior performance year after year is to bring your Volvo to your authorized retailer for regular maintenance. Our service advisors and factory-trained technicians are uniquely qualified to maintain your automobile. With the aid of advanced Volvo diagnostics, they follow all prescribed factory maintenance outlined in your service interval manual. Genuine Volvo Service is our ongoing commitment to you: to keep your Volvo performing smoothly long after other cars have given up.

VOLVO OVERSEAS DELIVERY

Volvo Overseas Delivery offers a unique way to buy your new custom-built car as well as a unique way to see more of Europe. And when you're done traveling, bring the pleasure of driving a Volvo back home. Purchase any new Volvo as part of the Volvo Overseas Delivery Program and enjoy all this – and more:

- Attractive pricing on Canadian models.
- Two complimentary round-trip tickets with Scandinavian Airlines.
- One free hotel night in Gothenburg, Sweden, the home of Volvo.
- An exciting Volvo Factory Tour or a visit to the new Volvo Cars Safety Centre.
- An exclusive VIP delivery experience at the Volvo Factory Delivery Centre.
- The opportunity to explore Europe in the comfort and safety of your own Volvo, either with one of our spectacular tours or on your own.
- Extensive complimentary home shipment services. Just leave your car with us. We'll ship it to you the convenient way while you relax and enjoy your complimentary flight back home.

Can you think of a better way of traveling overseas and making your souvenir part of an unforgettable experience?

If you would like to know more, contact a national customer service representative in Canada 1 (800) 663-8255 or visit www.volvocanada.com
