Safety Precautions:

- 1. Ensure the plug is securely plugged into the main socket before operating the unit.
- 2. Ensure the Voltage on the main socket is the same as specified on the unit.
- 3. Use parts only manufactured by the unit manufacturers.
- 4. Request a repair report from the technician/service personnel.
- 5. Ensure the battery is correctly installed before using the unit.

In case of the following emergencies, remove plug from the main socket immediately:

- 1. Plug or cables are damaged.
- 2. Any form of foreign objects dropped inside the enclosure.
- 3. Unit is being exposed to rain and/or water.
- 4. Unit unable to operate under normal operation.

Notices:

- 1. The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- 2. To comply with the FCC RF exposure compliance requirments , no change to the antenna or the device is permitted. Any change to the antenna or the device could result in the device exceeding the RF exposure requirements and void user's authority to operate the device.

This device complies with part 15 of the FCC RULES. Operations is subject to the following two conditions:

- (1) This device may not cause harmful interference and
- (2) This device must accept any interference received, including interference that may cause undisried operation.

CAUTION

RISK OF ELECTRIC SHOCK

DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER - SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL

The lighting flash with Arrowhead Symbol within an equilateral triangle is intended to alert the user to the presence of "uninsulated " dangers voltage" within the product's enclosure that may be of sufficient magnitude to consistute a risk of electric shock to persons.

The exclamation point within an equilater triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instruction in the literature accopmpanying the appliance.

1. INTRODUCTION:

Overview :

New technology in LCD monitors allows the enjoyment of a higher quality picture display and higher brightness; lighter in weight and slimmer body design, power saving capabilities and low radiation, giving you a safe, relaxing and environmental friendly visual enjoyment.

Our product uses high quality original imported 23 inches 16:9 colored "Active Matrix TFT". The Active Matrix TFT high decoding capabilities enable display of complicated or high quality images, presenting a vivid visual reproduction and beautiful visual display. Incorporated with a user-friendly menu, allowing easy customization to user preferences.

The unit comes with built-in screen display controls when used with the remote control, allowing you to make changes to the settings. It even support the use of 2 channel wireless headphones, therefore you do not need to worry that the volume coming out from the monitor will disturb other people. The Digital True Surround Sound capabilities from the 2D Stereo Speaker brings you the ultimate enjoyment of audio visual effects. Digital output function, when connected to other audiovisual devices, gives you the best enjoyment in entertainment relaxation.
