

ORION T8320

The Benchmark in European Widescreen Technology

32" Real-Flat Widescreen Television 100Hz with Stereo, VGA Input, Teletext and more...

The T8320 has been designed using only the finest components available and manufactured with quality as the paramount goal. It is packed with every conceivable feature with the home cinema enthusiast in mind. With its sleek silver cabinet, the T8320 has been styled to take pride of place in any home.

100Hz scanning is provided for clear images with rich, natural colours. And for the PC user, the T8320 allows instant computer connection through a VGA input.

The T8320's sound system utilizes premium quality twin front speakers for rich hi-fi stereo sound.

If you want to get right in on the action, the T8320 offers teletext, NTSC playback and zoom function. A hotel lock is also provided to allow setting of maximum volume level and tuning lock.

To back up a worldwide reputation for quality and reliability, Orion provides a full 2 year in home warranty with an additional 1 year warranty on the picture tube.
