

Before connecting, operating or adjusting this product, please read these instructions completely. Please keep this manual for future reference.

TQBC0784

Important Safety Instructions

CAUTION **RISK OF ELECTRIC SHOCK** DO NOT OPEN

The lightning flash with arrow head within a triangle is intended to tell the user that parts inside the product are a risk of electric shock to persons.

The exclamation point within a triangle is intended to tell the user that important operating and servicing instructions are in the papers with the appliance.

■ Note to CATV System Installer: This reminder is provided to direct the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

Important Safety Instructions for LCD TV

- 1) Read these instructions. All the safety and operating instructions should be read before the appliance is operated. 2) Keep these instructions.
- 3) Heed all warnings.
- Follow all instructions. 4)
- 5) Do not use this apparatus near water. For example: Avoid placing it near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc.
- Clean only with dry cloth. Unplug this LCD TV from the wall outlet before cleaning. Do not use liquid or 6) aerosol cleaners.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions. 7) Slots and openings in the cabinet and the back or bottom are provided for ventilation, and to ensure reliable operation of the LCD TV and to protect it from overheating. These openings must not be blocked or covered. There should be at least 10 cm of space from these openings. The openings should never be blocked by placing the LCD TV on a bed, sofa, rug or other similar surface. This LCD TV should not be placed in a built-in installation such as a bookcase unless proper ventilation is provided.
- 8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11) Only use attachments/accessories specified by the manufacturer. Otherwise it may cause hazards.
- 12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- 13) Unplug this apparatus during lightning storms or when unused for long periods of time. This will prevent damage to the receiver due to lightning and power-line surges.
- 14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- Upon completion of any service or repairs to this LCD TV, ask the service technician to perform routine safety checks to determine that the television is in safe operating condition.
- 15) Operate only from the type of power source indicated on the marking label. If you are not sure of the type of power supplied to your home consult your television dealer or local power company.
- 16) Follow all warnings and instructions marked on the LCD TV.
- 17) Never push objects of any kind into this LCD TV through cabinet slots as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. Never spill liquid of any kind on the LCD TV.

- 18) If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built up static charges. In the U.S. Selection 810-21 of the National Electrical Code provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.
- 19) An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

Important Safety Instructions

- 20) Unplug this LCD TV from the wall outlet, and refer servicing to qualified service personnel under the following conditions:
 - a. When the power cord or plug is damaged or frayed.
 - b. If liquid has been spilled into the LCD TV.
 - c. If the LCD TV has been exposed to rain or water.
 - d. If the LCD TV does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the LCD TV to normal operation.
 - e. If the LCD TV has been dropped or the cabinet has been damaged.
 - f. When the LCD TV exhibits a distinct change in performance this indicates a need for service.
- 21) When replacement parts are required, be sure the service technician uses replacement parts specified by the manufacturer that have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
- 22) WARNING : TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPARATUS TO RAIN OR MOISTURE.
 - DO NOT PLACE LIQUID CONTAINERS (FLOWER VASES, CUPS, COSMETICS, ETC.) ABOVE THE SET. (INCLUDING ON SHELVES ABOVE, ETC.)
- 23) **CAUTION** : TO PREVENT ELECTRIC SHOCK DO NOT USE THIS PLUG WITH A RECEPTACLE OR OTHER OUTLET UNLESS THE BLADES CAN BE FULLY INSERTED TO PREVENT BLADE EXPOSURE.
- 24) CAUTION : USE WITH OTHER STAND MAY RESULT IN INSTABILITY CAUSING POSSIBLE INJURY.
- 25) **CAUTION** : DANGER OF EXPLOSION IF BATTERY IS INCORRECTLY REPLACED. REPLACE ONLY WITH THE SAME OR EQUIVALENT TYPE.
- **NOTE:** This equipment is designed to operate in North America and other countries where the broadcasting system and AC house current is exactly the same as in North America.
 - The marking or retained image on the LCD panel resulting from fixed image use is not an operating defect and as such is not covered by Warranty. This product is not designed to display fixed image patterns for extended periods of time.
- Important Information Regarding Use of Video Games, Computers, Captions or Other Fixed Image Displays. The extended use of fixed image program material can cause a permanent "shadow image" on the LCD panel. This background image is viewable on normal programs in the form of a stationary fixed image. This type of irreversible LCD panel deterioration can be limited by observing the following steps:
 - A. Reduce the brightness/contrast setting to a minimum viewing level.
 - B. Do not display the fixed image for extended periods of time.
 - C. Turn the power off when not in actual use.
- This product utilizes tin-lead solder, and has a fluorescent lamp containing a small amount of mercury. Disposal of these materials may be regulated in your community due to environmental considerations. For disposal or recycling information please contact your local authorities, or the Electronics Industries Alliance: www.eiae.org.

Dear Panasonic Customer

Welcome to the Panasonic family of customers.

We hope that you will have many years of enjoyment from your new LCD TV. To obtain maximum benefit from your set, please read these instructions before making any adjustments, and retain them for future reference. Retain your purchase receipt, and record the model number and serial number of your set in the space provided on the rear cover of these instructions.

Federal Communication Commission Information

This equipment has been tested and found to comply with the limits for a TV Broadcast Receiver, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause or receive interference, which can be determined by turning equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the TV antenna. Increase the separation between TV and other equipment. Connect TV into separate outlet from other equipment. Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Pursuant to 47CFR, Part 15.21 of the FCC rules, any changes or modifications not expressly approved by Matsushita Electric Corporation of America could result in harmful interference and would void the user's authority to operate this equipment.

The ENERGY STAR[®] label, a symbol for energy efficiency, was created by the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy (DOE) to help customers identify products that can save them money and protect the environment by saving energy. ENERGY STAR[®] compliant products generally consume less energy than similar standard products.

Maintenance 35

SUPPLIED ACCESSORIES

Check the accessories before installations. Operating Instruction book • Remote Control Transmitter • Batteries for the Remote (EUR7726040) **Control Transmitter** (2 × AA size) Panasonio 123 789 • Warranty Card • Service Center List Customer Card Customer Care Plan Card (For U.S.A.) (For U.S.A.) (For U.S.A.)

Installation

Receiver Location

Locate for comfortable viewing. Avoid placing where sunlight or other bright light (including reflections) will fall on the screen. Use of some types of fluorescent lighting can reduce remote control transmitter range.

Adequate ventilation is essential to prevent internal component failure. Keep away from areas of excessive heat or moisture.

Optional External Equipment

The Video/Audio connection between components can be made with shielded video and audio cables. For best performance, Antenna cables should utilize 75 ohm coaxial shielded wire. Cables are available from your dealer or electronic supply store. Before you purchason TJ/Fj9 95n .w0 0 9 p/Faudi138on ys45 ut videin ut Áudio corse fromvct ousrange.

Remote control battery installation

Requires two AA batteries.

1. Open the battery cover.

2. Install the batteries and replace the cover. Note the correct polarity (+ and -).

▲ Precaution on battery use

Incorrect installation can cause battery leakage and corrosion that will damage the remote control transmitter. Observe the following precautions:

- 1. Always use new batteries when replacing the old set.
- 2. Do not attempt to charge, short-circuit, disassemble, heat or burn used batteries.
- 3. Battery replacement is necessary when remote control acts sporadically or fails to operate this unit.

Connections

Note:

Cables and connectors are not supplied with this set.

Antenna Connection

For proper reception of VHF/UHF channels, an external antenna is required. For best reception, an outdoor antenna is recommended. The antenna mode must be set to TV (see page 12, MODE).

Cable Box Connection

- For reception of cable channels (01 125), connect the cable supplied by your local cable company. The antenna mode must be set to CABLE (see page 12, MODE).
- Certain cable systems offset some channels to reduce interference or view Premium (scrambled) channels.
 A cable converter box is required for proper reception. Check with your local cable company for its compatibility requirements.
- · Set the TV channel to CH3 or CH4 when using this connection.

Connecting Other Equipment

Notes:

- Only 480i and 480p are available through the component input terminals.
- When connecting video cables, priority is given to the S-Video cable when both the S-VIDEO input terminal and the VIDEO input terminal are connected.
- With a monaural VCR, connect the monaural audio cable to the AUDIO-L terminal.
- Please make inquiries to video game manufacturers concerning component cables to connect with video game console.

Menu Operations

Tuning Channels

Automatic channel programming

CH

Automatically scans and stores all the TV channels.

Press to start AUTO PROGRAM.

Channels will automatically advance until all channels have been scanned. Channel numbers with video signal received will be stored in the Channel Memory.

Notes:

- When any button is pressed during AUTO PROGRAM, the TV will return to the normal viewing. (Channels searched up to the point are added.)
- After AUTO PROGRAM finishes, the lowest channel number added will be displayed.
- When there are no receivable channels, channel 69 (for TV) or channel 125 (for cable TV) is displayed.

Manual channel programming

Add or delete a channel manually.

• Repeat steps 6 and 7 for other channels.

LOCK

1

V-Chip technology allows parents to use the TV rating codes to block programs that they feel are inappropriate for their children to watch.

Press the MENU button to display the MENU screen and select SET UP.

14

U.S. TV PROGRAMS

This TV features the "V-Chip technology" which allows you to use U.S. TV PROGRAMS Guide ratings to block various types of TV programs.

NR	Not Rated. See Customer Caution on page 17.
TV-Y	All children. The themes and elements in this program are specifically designed for a very young audience, including children from ages 2-6.
TV-Y7	Directed to older children. Themes and elements in this program may include mild physical or comedic violence, or may frighten children under the age of 7.
TV-G	General audience. It contains little or no violence, no strong language, and little or no sexual dialogue or situations.
TV-PG	Parental guidance suggested. The program may contain infrequent coarse language, limited violence, some suggestive sexual dialogue and situations.
TV-14	Parents strongly cautioned. This program may contain sophisticated themes, sexual content, strong language and more intense violence.
TV-MA	Mature audiences only. This program may contain mature themes, profane language, graphic violence, and explicit sexual content.
FV	FANTASY/CARTOON VIOLENCE
V	VIOLENCE
S	SEX
L	OFFENSIVE LANGUAGE
D	DIALOGUE WITH SEXUAL CONTENT

Menu Operations

U.S. MOVIES

This TV features the "V-Chip technology" which allows you to use Motion Picture Ratings when viewing movies or video tapes. This innovation allows parents to block various types of movies and video tapes at their discretion.

NR	CONTAINS NO RATING (NOT RATED) AND NA (NOT APPLICABLE) PROGRAMS. Movie has not been rated or rating does not apply.
G	GENERAL AUDIENCES. All ages admitted.
PG	PARENTAL GUIDANCE SUGGESTED. Some material may not be suitable for children.
PG-13	PARENTS STRONGLY CAUTIONED. Some material may be inappropriate for children under 13.
R	RESTRICTED. Under 17 requires accompanying parent or adult guardian.
NC-17	NO ONE 17 AND UNDER ADMITTED.
Х	ADULTS ONLY.

CANADIAN ENGLISH / CANADIAN FRENCH

The V-CHIP used in this TV allows you to block various types of movies and television programs based on the two rating systems used in Canada. It also lets you block or unblock Canadian French programs according to various ratings categories.

CANADIAN ENGLISH RATINGS CHART

E	Exempt - Exempt programming includes: news, sports, documentaries and other information programming, talk shows, music videos, and variety programming.
С	Programming intended for children under age 8. No offensive language, nudity or sexual content.
C8+	Programming generally considered acceptable for children 8 years and over. No profanity, nudity or sexual content.
G	General programming, suitable for all audiences.
PG	Parental Guidance suggested. Some material may not be suitable for children.
14+	Programming contains themes or content which may not be suitable for viewers under the age of 14. Parents are strongly cautioned to exercise discretion in permitting viewing by pre-teens and early teens.
18+	18+ years old. Programming restricted to adults. Contains constant violence or scenes of extreme violence.

CANADIAN FRENCH RATINGS CHART

E	Exempt - Exempt programming.
G	General - Programming intended for audience of all ages. Contains no violence, or the violence content is minimal or is depicted appropriately.
8 ANS+	8+ General - Not recommended for young children. Programming intended for a broad audience but contains light or occasional violence. Adult supervision recommended.
13ANS+	Programming may not be suitable for children under the age of 13 - Contains either a few violent scenes or one or more sufficiently violent scenes to affect them. Adult supervision strongly suggested.
16ANS+	Programming may not be suitable for children under the age of 16 - Contains frequent scenes of violence or intense violence.
18ANS+	Programming restricted to adults. Contains constant violence or scenes of extreme violence.

Customer Caution

The V-Chip system that is used in this set is capable of blocking "NR" programs (non rated, not applicable and none) per FCC Rules Section15.120(e)(2). If the option of blocking "NR" programs is chosen "unexpected and possibly confusing results may occur, and you may not receive emergency bulletins or any of the following types of programming:"

• Emergency Bulletins (Such as EAS messages, weather warnings and others)

Locally originated programming • News • Political • Public Service Announcements • Religious • Sports
 Weather

CLOSED CAPTION

This unit has a built in decoder that provides a visual depiction of the audio portion of a television program in the form of written words across the screen (white or colored letters on a black background). It allows you to read the dialogue of a television program or other information.

Press the MENU button to display the MENU screen and select SET UP.

CC ON MUTE

Displays the On-Screen Closed Caption when the MUTE button is pressed. To delete the closed caption, press the MUTE button again.

Notes:

• To activate this feature, set CC MODE to OFF .

• The program must have Closed Caption.

CC MODE

Displays the On-Screen Closed Caption.

- OFF (NO): Recommended mode when Closed Caption is not being used.
- C1 : For video related information that can be displayed (up to 4 lines of script strategically placed on the television screen so that it does not obstruct relevant parts of the picture).
- C2 : Another mode used for video related information.

You can change the label of the video inputs to match with the connected device (VCR, DVD player etc.).

PICTURE ADJUST

NORMAL/NORMALIZE

Select "NORMALIZE" and press "OK" button to return each PIC MODE to the factory default setting.

Notes:

- "NORMAL" means the PIC MODE is in the factory default setting. "NORMAL" changes to "NORMALIZE" when you change the setting of BACK LIGHT, PICTURE, BRIGHTNESS, COLOR, TINT, SHARPNESS or AI PICTURE.
- You can normalize each PIC MODE separately.

PIC MODE

The picture mode is stored for TV, VIDEO1/VIDEO2 and COMPONENT individually.

MODE	Function
VIVID	Displays a clear image with high contrast.
STANDARD	Displays a standard image.
CINEMA	Ideal for watching movies in a dark room.

BACK LIGHT, PICTURE, BRIGHTNESS, COLOR, TINT, SHARPNESS, AI PICTURE

You can change the sub-menu settings (BACK LIGHT, PICTURE, BRIGHTNESS, COLOR, TINT, SHARPNESS and AI PICTURE) for each PIC MODE (STANDARD, CINEMA, and VIVID) according to your personal preference.

Sub-menu	Function
BACK LIGHT	Luminance of the back light is adjusted.
PICTURE	Selects proper brightness and density for the room.
BRIGHTNESS	Adjusts for easier viewing of dark pictures such as night scenes.
COLOR	Adjusts the level of color.
TINT	Adjusts for flesh tone color.
SHARPNESS	Adjusts the degree of sharpness.
AI PICTURE	Controls dark areas without affecting the black level or brightness in the overall picture.

AUDIO ADJUST

NORMAL/NORMALIZE

Select "NORMALIZE" and press "OK" button to return each MODE to the factory default setting. **Notes:**

- "NORMAL" means the MODE is in the factory default setting. "NORMAL" changes to "NORMALIZE" when you change the setting of BASS, TREBLE, BALANCE, SURROUND or EQUALIZER.
- You can normalize each MODE separately.

MODE

MODE	Function
DYNAMIC	Gives contrast to sound.
MUSIC	For programs consisting mainly of music. Enhances high sounds (around 4 kHz).
AUTO	Automatically adjusts for a wide Dynamic Range.
STANDARD	Emits the original sound.

BASS, TREBLE, BALANCE, SURROUND, EQUALIZER

You can change the level of each sub-menu (BASS, TREBLE, BALANCE, SURROUND and EQUALIZER) for each MODE (AUTO, STANDARD, DYNAMIC and MUSIC) according to your personal preference.

Sub-menu	Function
BASS	Adjusts low frequencies.
TREBLE	Adjusts high frequencies.
BALANCE	Adjusts left and right volume.
SURROUND	To enjoy a concert hall effect, select ON when stereo is playing.
EQUALIZER	Makes voice sound clear. Normally set to ON.

STEREO/SAP/MONO

Note:		MODE	Function
Red display White display White display (All modes) To change the mode using	: With signal : No signal : MONO g SAP button	STEREO	Two channel audio reception.
		SAP	Second Audio Programming (typically used for bilingual audio).
(see page 10).		MONO	Select when stereo signal is weak.

ASPECT Controls

(For Video input only)

This feature allows you to enjoy viewing the picture at its maximum size, including wide screen cinema format picture.

Each time you press the button:

Notes:

• The aspect setting is stored separately for VIDEO1, VIDEO2 and COMPONENT.

• In TV mode and Photo Viewer mode, the aspect is fixed at 4:3.

Mode	Picture	Explanation	
4 : 3		4:3 mode will display a 4:3 picture at its standard 4:3 size without any stretching.	
16 : 9		16:9 mode will display 16:9 aspect ratio picture. Bars can be seen at the top and bottom of the image (not available in TV mode).	

Photo Viewer

Photo Viewer lets you display JPEG images recorded by digital still camera on SD card or other types of memory card when it is inserted in the proper card slot.

Compatible card type and card size

SD card slot

SD Card (512MB)
 Multi Media Card (128MB)
 miniSD Card^{*} (128MB)

PCMCIA card slot

- SD Card (512MB) miniSD Card* (128MB)
- Multi Media Card (128MB) Compact Flash (1GB)
- Smart Media (128MB) Memory Stick (128MB)
- xD Picture Card(128MB) Flash ATA (128 MB)
- Memory Stick Pro (1GB)
 The cards require standard PCMCIA card adapter. (Some PC card adapter will not be compatible).

* miniSD Card requires miniSD adapter.

- Photo Viewer is not compatible with card type hard disk (Micro Drive, Mobile type hard disk, etc).
- Memory cards are not supplied with this television.
 When both SD card and PCMCIA card are inserted in the slot, SD card has the priority.

Card Data Protection

- Do not remove the card while Photo Viewer is accessing the information (when the card icon is flashing). Such action may damage the memory card or the unit itself.
- Before inserting or removing the PCMCIA card, make sure that the TV is turned Off. Otherwise, it may damage the unit.
- Do not touch the terminals on the back of the SD card / PCMCIA card.
- Always insert a card in the correct direction. Failure to do so may result in damage to the card and this unit.
- Do not subject the card to excessive pressure or strong impacts.
- Electrical interference, electrostatic discharges and malfunctions of the unit or card may all result in data loss or damage to the card.
- Stored data should be periodically backed up as a protection against data corruption, data loss or device malfunction. Please note that Panasonic shall not accept any liability for damage or loss of stored data.
- WARNING: As with any small object, an SD card can be swallowed by young children. Do not allow children to handle SD card. Please remove SD card immediately after use.

Folders and Files

- Photo Viewer can only show still images recorded by a digital still camera with DCF^{*} and EXIF standard JPEG file.
- * DCF (Design rule for Camera File system) Unified standard established by Japan Electronics and Information Technology Industries Association (JEITA).
- Memory cards must be formatted with FAT12 or FAT16 in order to be viewed on TV. If the card is not formatted, it may cause incompatibility with certain memory card adapters. If this happens, reformat the card using your digital still camera.
 Reformatting the card will erase the images stored in it. Refer to your camera manual for more information.
- Maximum number of folders that can be displayed: **100**.
- Maximum number of files that can be displayed: 3000.
- Picture resolution: Compatible in the range 64 x 64 8192 x 8192 (sub-sampling 4:2:2 or 4:2:0)
- If the image is imported from a PC, it must follow the EXIF (Exchangeable Image File Format) 2.0, 2.1, 2.2 in addition to the DCF format.
- The JPEG modified using a PC will not be displayed on TV.
- The Photo Viewer cannot display Motion JPEG and still image not DCF formatted (i.e. TIFF, BMP).
- If the file is partially corrupted, it may be shown in lower resolution.
- The displayed image size depends on the recorded size.

(While in the single picture view mode only)

Select the magnification of the single picture display and press OK.

Notes:

- Press CH ▲, CH ▼, VOL ◀, VOL ► to move the image in the picture frame.
- Press OK again to view the picture in normal magnification.

Card

Select either "SD" or "PC" when both cards are inserted in the slots. Press **OK** to determine the selection.

Error messages

"Card is not inserted correctly"	Insert a card.
"This type of image is not supported."	The JPEG file is corrupted and cannot be decoded.
"This type of format is not supported."	The card is not formatted with FAT 12 or FAT 16 or if it is not DCF standard.
" 🔘 "	Thumbnail and main picture cannot be shown.
"Photo Viewer cannot support over 3000 JPEG files."	Over 3000 image files.
"Photo Viewer cannot support over 8192 x 8192 pixels."	Resolution over.
"This type of card is not supported."	Incompatible card is inserted.

Conexión

Nota:

Con este aparato no se suministran cables ni conectores.

Conexión de antena

Para recibir correctamente los canales de VHF/UHF se requiere una antena externa. Para obtener la mejor recepción se recomienda utilizar una antena para exteriores. El modo de antena debe ajustarse a TV (consulte la página 31, MODO).

Conexión del receptor de TV por cable

- Para recibir los canales de televisión por cable (01 125) conecte el cable suministrado por su compañía de televisión por cable. El modo de antena debe ajustarse a CABLE (consulte la página 31, MODO).
- Ciertos sistemas de televisión por cable neutralizan algunos canales para reducir interferencias o tienen canales especiales (codificados). Para recibir correctamente estos canales se necesita un sintonizador de conversión de televisión por cable. Póngase en contacto con su compañía de televisión por cable para conocer los requerimientos de compatibilidad.
- Ponga el canal del televisor en CH3 o CH4 utilice esta conexión.

- La pantalla de imagen miniatura es la pantalla de entrada inicial desde el menú principal.
- Cuando se introduzcan las tarjetas SD y PCMCIA, el televisor reproducirá la tarjeta SD. Para reproducir una tarjeta PCMCIA, seleccione "PC" en "Tarjeta" del Ajustes de Menú.
 - Introduzca la tarjeta en la ranura apropiada (vea las página 24).

OPresione para mostrar una pantalla de imagen miniatura.

-Número de imagen/Número total de imágenes

Nombre de archivo, la fecha y los píxeles (resolución) de la iamgen

Notas:

- Si hay muchos archivos o el tamaño del archivo es grande se puede tardar más tiempo en mostrar la imagen miniatura.
- La imagen desaparece de la pantalla mientras Photo Viewer accede a la información de la tarjeta. Después de acceder a las imágenes de la tarjeta se muestra una pantalla de imagen miniatura.

Seleccione la imagen miniatura.

- Presione para visualizar la imagen en el modo de visión de una sola imagen.

Presione para seleccionar la imagen siguiente o la anterior.

- Presione CH ▲, CH ▼, para girar la imagen noventa grados.
- Presione **OK** para volver a la pantalla de imagen miniatura.

■ Ajustes de Menú de Photo Viewer

En el modo de imagen miniatura o en el modo de visión de una sola imagen

Presione para mostrar la pantalla Ajustes de Menú.

• Para salir de Photo Viewer :

Con esto se retorna a la visión normal.

Troubleshooting

If there is a problem with your TV please refer to the table below to determine the symptoms, then carry out the suggested check. If this does not solve the problem, please contact your local Panasonic dealer, quoting the model number and serial number (both found on the rear of the TV).

Symptoms		Checks	
Picture	Sound	CHECKS	
Snowy Picture	Noisy Sound	Antenna location, direction or connection.	
Multiple Image	لاً یا Normal Sound	Aerial location, direction or connection.	
Interference	Noisy Sound	Electrical appliances Cars / Motorcycles Fluorescent lights	
Normal Picture	No Sound	Volume level Sound mute switched on.	
? No Picture	収 え No Sound	TV set to Video Input mode. Not plugged into AC outlet. Not switched on. Picture / Sound controls set at minimum levels. Check if in Standby mode.	
No Colour	Normal Sound	Color controls set at minimum levels. Weak signal.	
Poor or Distorted Picture	Weak or No Sound	Retune Channel (s).	
Normal Picture	Weak or No Sound	Sound reception may have deteriorated. Switch STEREO mode to Off until reception improves.	
Cannot operate with the remote control.		The battery is exhausted. The battery's polarity is wrong. The remote control sensor is exposed to strong light of a fluorescent lamp, etc.	
The main unit is hot.		The main unit radiates heat and some of the parts may become hot. This is not a problem for performance or quality. Set up at a location with good ventilation. Do not cover the ventilation holes of the TV with a tablecloth etc., and do not place on top of other equipment.	
There may be red spots, blue spots, green spots and black spots on the screen.		This is a characteristic of liquid crystal panels and is not a problem. The liquid crystal panel is built with very high precision technology giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of red, blue, green, or black. Please note this does not affect the performance of your LCD.	
Photo Viewer			
		Not compatible format. Must be formatted with FAT 12 or FAT 16.	

Cannot read the content of the card.	The extension is not "JPG". The folders not under DCF standard.	
PC card cannot be ejected.	Push the card all the way in, and eject.	
Poor picture quality.	If the main image cannot be read (the file is partially corrupted), the Photo viewer will read the thumbnail. Please confirm the format of the image.	
Picture takes a long time to display.	There are lots of images or the file size is large.	

Specifications

		TC-20LB30		
	Power Source	AC 120 V, 60 Hz		
		Average use : 58 W		
	Power Consumption	Stand-by condition : 0.10 W		
		Power off : 0.08 W		
LCD		19.6-inch (499 mm) Diagonal 4:3 aspect ratio LCD panel		
		VGA (640 \times 480 pixels)

Maintenance

To clean this unit, wipe with a soft, dry cloth.

- If the surfaces are extremely dirty, use a soft cloth dipped in a soap and water solution or Mild detergent a weak detergent solution.
- Use eyeglass cleaner to remove stubborn dirt from the LCD.
- Never use alcohol, paint thinner or benzine to clean this unit.
- · Before using a chemically treated cloth, read the instructions that came with the cloth carefully.

CAUTION:

If water or similar substances get inside the monitor via the liquid crystal panel surface, a malfunction may result.

Customer's Record

The model number and serial number of this product can be found on its rear panel. You should note this serial number in the space provided below and retain this book, plus your purchase receipt, as a permanent record of your purchase to aid in identification in the event of theft or loss, and for Warranty Service purposes.
