- **Remote control type:** 22AV1104/10 (RC6)
- **Remote Control:** low battery detection, battery anti-theft protection
- **Firmware upgradeable:** Firmware upgradeable via USB
- **Other convenience:** Kensington lock
- **Electronic Programme Guide:** Now + Next EPG

Healthcare
- **Control:** Multi remote control, Pendant control via IR-link
- **Safety:** Double isolation Class II

Multimedia Applications
- **Multimedia connections:** USB
- **Playback Formats:** MP3, JPEG Still pictures, Slideshow files (.alb)

Green Specifications
- **Safety:** Flame-retardant housing

Electricity
- **Mains power:** 220 - 240 V, 50/60 Hz
- **Power consumption:** 120 W
- **Standby power consumption:** <1.2 W
- **Ambient temperature:** 5°C to 40°C

Dimensions
- **Set dimensions (W x H x D):** 686 x 452 x 103 mm
- **Set dimensions with stand (W x H x D):** 686 x 510 x 220 mm
- **Box dimensions (W x H x D):** 764 x 522 x 259 mm
- **Product weight:** 10 kg
- **Product weight (+stand):** 13 kg
- **Weight incl. Packaging:** 16 kg
- **Colour cabinet:** Black
- **VESA wall mount compatible:** 200 x 100 mm

Accessories
- **Included Accessories:** Remote Control, Batteries for remote control, Power lead, Tabletop swivel stand, Warranty Leaflet
- **Optional accessories:** Set up Remote RC2573GR, Wall mount (tilt) 22AV3200/10

Product highlights

Welcome message
A welcome greeting is displayed each time the TV set is switched on.

Switch On Channel Programming
Perfect for in-house advertising or information channels as it allows a predefined channel to be shown when the TV is turned on.

HD Ready with DVB-T tuner
Have guests enjoy the exceptional picture quality of High Definition pictures and be fully prepared for HD sources like HDTV set-top boxes. The TV is able to accept analogue YPbPr signals, as well as the highest quality uncompressed Digital signals via DVI or HDMI. The Digital signals will support HDCP copy protection. With the integrated DVB-T tuner the TV can offer Digital Terrestrial TV channels alongside the existing analogue channels. It also allows guests to listen to digital radio stations in high-quality sound without the extra investment in radio receivers.

Integrated clock display
The built-in clock display, which is also a wake-up alarm, eliminates the need for investment in an additional clock with cables and connections in the room. Automatic time synchronisation via teletext and preservation of alarm settings during short power outages further enhances guest comfort

One combined channel list
One integrated channel list for digital and analogue channels. This allows the guest to flick seamlessly between Analogue and Digital channels.

Hospitality Remote Control
This TV comes with a stylish remote control that is specially designed for hospitality usage. For an easy-to-use experience for the guest, only the most essential buttons and functions are offered. In addition, low battery check and anti-theft battery provisions are features that can contribute to efficient hotel operations.

Volume limitation
This feature predefines the volume range within which the TV set is allowed to operate, preventing excessive volume adjustments and disturbance of neighbouring guests.

Connectivity Panel compatible
This TV works seamlessly with Philips Connectivity Panels. The guest can easily connect and enjoy media from a PC, MP3 player, DVD player, camcorder and various other devices. With autosensing, the Connectivity Panel and the TV will automatically switch to display the content from the connected guest device.

USB Cloning
Provides the ability to easily copy all programming and channel programming settings from one TV into other TV sets in less than a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

Set-top box compatible
This hotel TV can be connected to a set-top box offering power on scart and the Serial Express Lite protocol.

* * For information on DVB-T enrolled countries please ask your Philips contact.
