PHILIPS

32" Pixel Plus Flex TV

This Time Machine widescreen brings the best in picture quality linked to the ultimate in convenience. Features a Real Flat screen enhanced by Digital Natural Motion and Pixel Plus creating fantastic picture detail and depth. A massively enhanced TV memory allows you to record programmes at the push of a button, pause live TV, then resume watching as if live, later even if the programme you resume watching is still taking place. Instant replay and commercial skip also make this TV a technical wizard. 6 speakers combined with Dolby 3D Surround and the optional 2 extra cordless speakers create a true-to-life home cinema experience. Full Dual Screen allows you to view 2 pictures side by side and record programmes whilst watching something else. Comes with matching stand.

- Weight Incl. Packaging: 32" - 847x549x539 mm
- Set Dimension (WxHxD): 32" - 847x549x539 mm
- Box Dimension (WxHxD): 32" - 951x701x700 mm
- TV Colour: Precision Silver (10888)

Product highlights

Real Flat Black Line S

Philips TV picture tube provides non-distorted picture quality, while offering a wider viewing angle without light reflections. Thanks to the highly pigmented phosphors, the brightness and contrast performance are considerably improved compared to conventional picture tubes.

Pixel Plus

Uses the power of the Pixel Plus processor to create 33 % more lines and double the number of Pixels on each line. The result is razor sharp pictures with incredible detail and depth, every time from any source.

Digital Natural Motion

Building upon 100 Hz technology Philips invented Digital Natural Motion to eliminate juddering effects that are visible with moving picture content. Digital Natural Motion estimates motion in the picture and corrects juddering movements in both broadcast and movie material (DVD). Smooth motion reproduction and excellent sharpness are the result.

Digital Crystal Clear

A unique package of picture innovations including Combfilter, Scavem, Dynamic Contrast, Color Enhancement and Luminance Transient Processing. Digital Crystal Clear, using 10 bit processing, offers 30% more contrast, natural colors and a high level of detail.

Dolby Pro-Logic 3D Surround

Using full Dolby Pro-Logic decoding, 3D Surround offers a cinema surround sound experience with integrated centre speaker, and without cables and rear speakers.

1200 Page HyperText & Wordsearch

Advanced Teletext featuring based upon the new Compass GUI with navigation functions Wordsearch and HyperText. In HyperText select any word within the teletext magazine and this system will find all other mentions of this word within teletext for that channel. Wordsearch is similar but you have the freedom to type in, using the remote control, a word of your choosing.

Pause live TV

Instant Recording at the touch of 1 button. Resume watching as if live, 10, 20 or 60 minutes later.

Instant Replay

Instant Play Back of last 6 seconds of action.

Multi Event Programming

Transfer any recording to a VCR or DVD Recorder to create a permanent record for your collection.

Commercial Skip

On any recording one button allows 30 second skipping of the programme to omit commercials.
