LCD TV-CD COMBO

BLC524/BLC528

Specifications

- **Cabinet**
BLC524—White.
BLC528—Silver.
- **Dimensions: 17⁵/₈" H, 11⁵/₈" W, 3¹/₂" D**

Picture

- **Adjustable Picture Brightness**
Adjust and optimize picture brightness depending on light intensity.
- **Protective Clear LCD Display Cover**
Clear scratch-resistant cover protects LCD display.
- **LCD Single Control Panel**
An easy-to-use guide menu makes adjustments to color, tint, brightness, contrast and sharpness a snap.
- **Advanced LCD Technology**
New lightweight thin-screen panels now produce distinctive full-color, edge-to-edge images. These new LCD panels combine a wider effective viewing area from any angle, and add a high-contrast screen. Detail clarity with any LCD model, particularly when viewing DVD or video input sources, adds on-screen realism.
- **One-Touch Video Input**
A single button toggles back and forth between television images and any external video input source. Whether using an optional security camera in the baby nursery or at the front door—or input from a VCR or DVD player—this simple front-panel control adds quick convenience.

Sound

- **Wall-Firing Stereo Speakers with Auto EQ**
Two stereo speakers mounted underneath are angled to project sound towards a back wall, for sound reflection, or through to any open area behind the front panel. Either way, sound patterns are cross-blended for better imaging. Built-in preset equalization assists the tonal range, and the built-in speakers and EQ are automatically by-passed when the pre-amplified stereo audio outputs are used. This allows optional amplified ceiling or wall speakers to be used, or the audio signal to be sent to a customized master control audio amplifier system.

Compact Disc Capabilities

- **CD-R/MP3 Compatible Playback**
Incorporates the newest electronic software to allow wider compatibility with CD-R and MP3 audio playback. With many MP3 disc encoded with more than two hundred songs, this RCA engineered system provides quick access combined with low-noise decoding.

Tuner Features

- **Digital AM/FM Stereo Tuner**
Tunes AM/FM stations with maximum accuracy and minimum drift. Always tunes to the center of the broadcast channel for minimum distortion.
- **AM or FM Station Presets**
Allows the user to program their favorite radio stations and have quick access to each of them.
- **Search Up/Down**
Automatically searches the band stopping at the next station in-tune.

Remote

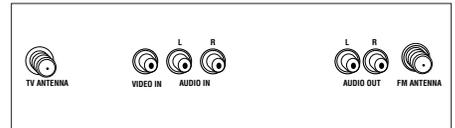

- **Magnetized Remote and Docking Port**
A matching remote control is included with a magnetized rear plate. A magnetic docking slot is provided both on the side of the unit or it secures to most refrigerator doors. The simple and compact design allows direct access to TV, radio, and disc selections, and includes volume, mute, and power on/off.

Remote Shown Attached to Refrigerator

Connections

- **Fixed Audio Outputs**
Connect TV to an external AV receiver or power amplifier to create a true home theater setup.
- **Rear Inputs**
 - 2 Audio
 - 1 Video
- **Rear Outputs**
 - 2 Audio (L/R)

Plus

- **Limited Warranty**
 - One year for parts and labor.
