

Model 9400 General Purpose Ceiling Mount Unit

Air purification system specially designed for smokers etc.

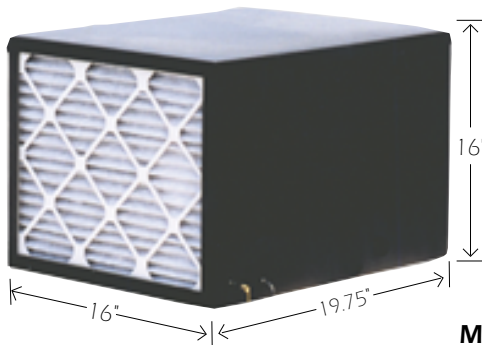

Strong odors are powerful emotional triggers and can often drive away potential customers.

The AllerAir General Purpose Ceiling Mount Unit helps to remove the unpleasant odor of cigar and cigarette smoke, while also adsorbing the harmful chemical by-products produced by second-hand smoke.

This ceiling mounted unit is an ideal, cost-effective solution for bars, lounges and restaurants looking to improve their air quality and reduce the need for segregated smoking areas.

For bars, restaurants, hotels or smoking lounges

Model 9400 CM
65 lbs.

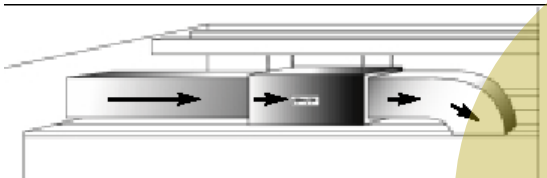

Four levels of filtration

- **HEPA filter**
2" deep, medical grade for trapping 99.97% of micro-particulates down to 0.3µ.
- **Activated carbon filter**
Specially blended carbon filter traps up to 400 toxic chemicals found in tobacco smoke.
- **Pre-filter**
1" tar-trapping pre-filter which works like a cigarette filter.
- **Post-filter**
Pleated post-filter.

Customize your filtration system by using either a 2" HEPA filter and 15 lbs of activated carbon, or 2 carbon filters of 15 lbs each.

Options

- **UV germicidal lamp, 10 or 20 Watts.**
- **Air Flanges and elbow for exhaust**
to allow clean fresh air properly directed
- **Variable speed motors, up to**
