

# GV42L10A FHDTV QUICKSTART GUIDE

# Before You Begin

- Verify all of the contents of your accessory package
- Review safety guidelines in Owner's Manual
- Place HDTV so the rear connectors are accessible
- Install AA batteries into the VIZIO Remote Control
- Write down your GV42L FHDTV Serial Number (located on the back)

#### Contents:

2 Power Cords

VIZIO GV42L FHDTV User Manual, Warranty & Repair Info, VIP Brochure and Registration Card.

Remote Control Includes 2 AA Batteries

AV Cable

# The Best Connection

For the best quality picture, we recommend using HDMI, DTV, RGB or Component inputs when possible. These are the only inputs capable of high definition (HD). Using these inputs does not guarantee high definition unless a high definition source is connected. However, not all equipment is capable of these connections. TV, AV and S-Video are not capable of HD signals.

+ Both DTV and TV share the same port. The television will automatically register which input type is connected.

VIZIO provides wall mounts & Installation Services. (See Install with a Pro details on back) Visit www.VIZIO.com or call 1-888-849-4623 to order today.

# Four Easy Steps Simply follow our color-coded Step Charts and you're done.

### 1) Choose items to connect to your GV42L FHDTV

- Determine which type of Signal Source and any Additional Equipment you wish to connect to your GV42L FHDTV.
- The colored dots under each Signal Source and Additional Equipment indicate which type of connections you may use to connect to your GV42L FHDTV.

Additional Equipment

Signal Sources

# 2) Choose equipment connection methods

- Using the colored dots from Step One, follow the row across to Step Two to match up the colored dots to the same colored connection method.
- Chose ONLY one method for each piece of equipment.

## 3) Select cables and make connections

- Once you have determined the connection methods from Step Two, follow the row to Step Three to determine what kind of cables you need and what the connections look like on your equipment.
- Following the color-coded system, use the appropriate cables and connect your Signal Source and Additional Equipment to the color-coded inputs on your GV42L FHDTV (Refer to **Connection Map** at bottom of page.)
- Once connected, turn on your GV42L FHDTV and all your equipment.

## 4) Use your GV42L FHDTV

Fill in the Connection Reference Chart below, noting how you will connect your equipment/signal source to your GV42LF.

- If you are using the DTV/TV input, turn over this guide and follow the programming instructions and then return to this last step.
- If you are not using the DTV/TV input continue to next step.
- Press the INPUT button on your remote. The INPUT menu will appear. (See image below.)
- Continue pressing the INPUT button until you reach the corresponding connection.

To Use This Chart: Write your equipment or signal source into the squares corresponding to your connection method.

① HDMI Cable, DVI-HDMI cable, VGA cable, Audio mini-jack and Component Cable are not included. These cables are available at www.VIZIO.com (View back for more details). For help with connecting components to your VIZIO TV, visit http://ceaconnectionsguide.com/ for an interactive guide.

## 3 WAYS TO GET HDTV

- 1) Off-Air antenna (using the DTV antenna input). To see if you are able to receive HD signals off-air and for help choosing the right antenna, visit www.antennaweb.org.
- 2) Cable Subscribe to HD programming through your local cable company (HD cable box required).
- 3) Satellite Subscribe to HD programming through Direct TV or Dish Network (HD satellite receiver required).

# GV42L10A FHDTV QUICKSTART GUIDE

# Program your TV

# Programming your GV42L FHDTV is a simple TWO STEP process.

All you need is your Remote Control.

#### STEP 1

Connect your Signal Source to the **DTV/TV** connection, go to **STEP 2**.

#### Please Note:

 Be sure the batteries in your remote are inserted correctly.

#### STEP 2

#### On your Remote Control...

- 1 Turn on the TV, the Initial Setup screen should appear. If this screen does not appear see User Manual Chapter 3 for TV Tuner Setup.
- 2 Select Language; English, Français, Español.
- 3 Press → or → once to select Cable or Antenna. Select Cable if you are using cable from the wall or Air if you are using an antenna.
- 4 Press to continue to the next screen.
- Press or on remote to scan for channels.

  Scanning for available channels could take several minutes.
- 6 Once scanning is finished, programming is complete.
- **7** For more detailed information see Chapter 3 of your User Manual.

For advanced setups, refer to chapter 3 of your GV42L FHDTV User Manual.

Programming Your Cable

or Satellite Box Remote

Consult your Cable or Satellite Owner's Manual to determine if you need a 3, 4 or 5-digit code. If your Cable or Satellite Box requires:

- 3-digits, please use "627" (This code usually works with DISHNetwork.)
- 4-digits, please use "1758", "0178" or "0128"
- 5-digits, please use "11758", "10178" or "10128" (These codes usually work for DIRECTV.)

Install with a Pro
Know your VIZIO is at its Best.

Choose from four different levels of installation

### Basic

- Setting up and connecting your VIZIO TV to your existing home theater or audio system located in the same room
- Programming of your VIZIO remote and 1 other remote to operate your display and cable or satellite box
