2 INSTALLING YOUR HDTV

We provide professional installation services. Visit www.VIZIO.com or call (888) 849.4623 to order today!

Attaching the Stand Base to the TV

1. Place the TV face down on a soft, flat surface.
2. Line up the stand base with the stand neck (attached to the TV) and carefully push the base onto the neck.
3. On the bottom of the stand base, turn the thumbscrew and tighten snugly (see Fig. 1).
4. Move the TV into an upright position and place so that the rear connectors remain accessible.

Preparing the TV for Wall Mounting - please refer to "Wall mounting your HDTV" in your User Manual for more information.

BE SURE TO UTILIZE THE HDMI INPUTS FOR THE BEST CONNECTION

4 POWER THE TV

Just lightly touch the Power button on your HDTV to turn in on, or press the Power button on the remote control.

The touch-sensitive TV controls will then light up when your hand approaches the TV.

HDTV TIPS

Make sure you have components with HDMI outputs to ensure the BEST possible picture.

3 WAYS TO WATCH HIGH DEFINITION VIDEO

1. Get a VIZIO Blu-ray™ Disc Player.
2. Contact your cable company or satellite provider to learn more about HD programming in your local area (an HD cable box or satellite receiver may be required).
3. You may be able to get HD signals using an off-air antenna. To see if you can receive off-air HD signals, and for help choosing the right antenna, visit www.antennaweb.org

5 SETUP (Cont.)

1. The Initial Setup menu should appear on-screen. Select your desired language (see Fig. 1).
2. Follow the menu instruction using your remote control to initialize the process. Choose Home Mode for optimal energy savings.

IF YOU'RE CONNECTING USING A CABLE OR SATELLITE BOX:

1. Exit the Setup Wizard.
2. Select your input source to match the device you're connecting to.
3. You're done! Enjoy the show.

IF YOU'RE CONNECTING USING A CABLE FROM THE WALL OR ANTENNA:

1. Choose between Antenna or Cable to match your input source (see Fig. 2).
2. Begin the scan for channels (see Fig. 3).

Note: Your Service Provider may provide access to HD channels during the channel scan. Please be patient and wait for 100% completion.

3. Once the scan is complete, follow the on-screen instruction to exit the Initial Setup menu (see Fig. 4).

▶ HELP TOPICS

▶ PROGRAM YOUR CABLE OR SATELLITE REMOTE

Call your Cable or Satellite provider to determine if you need a 3, 4 or 5-digit code. Refer to the following chart of VIZIO codes and follow your provider's instructions to program your Cable or Satellite remote.

SERVICE PROVIDER	5-DIGIT CODES	4-DIGIT CODES	3-DIGIT CODES

PROBLEM

SOLUTION

No Power

Make sure the power button is ON. Make sure the AC power cord is securely connected to the AC socket and try plugging the TV directly into the wall. Plug another electrical device (like a radio) to the outlet to verify the outlet is supplying power.

Picture is blurry or fuzzy/ image quality issues

For the best image quality, view HD wide screen programs where possible. If HD content is not available, view Standard Definition from a digital source. Standard analog TV will always be noticeably inferior to HD because your digital flat panel TV has video that is many times better than old TVs, and thus you can see interference and deficiencies you did not know you had.

Cannot change channels up and down with direct cable hookup from wall or antenna

Press the MENU button. Use the arrows to navigate to the TV TUNER MENU. Highlight the first option, called Tuner Mode. Select the appropriate input by using the left and right arrows. Once Tuner Mode is correct, highlight "AutoSearch", then press the right arrow.

Cannot return to the Setup Wizard

The Setup Wizard is no longer accessible after being run once, but all of the same settings can still be changed. Press the MENU button to access them. For channel scan, see the above topic.

Screen is displaying blue/no signal and/or turning off after a few seconds

Your TV may be on an inactive input. After powering on the TV, press the INPUT button on your remote repeatedly until a picture re-appears. If this does not work, try it a second time but press the button slower this time; it can take as long as 30 seconds for the image to reappear.

Panoramic mode is not available

When the TV displays an HD resolution the Panoramic viewing mode will not be available.

Black or gray bars on top, bottom, and/or sides of picture

Try setting your TV to wide or zoom mode; the image should fill the screen. If you still see bars, they are part of the image the TV is receiving. Cable and satellite boxes may add black bars to the picture, especially when HDMI cables are used. For more information, please contact your service provider.
