HYUNDAI

LCD TV

Owner's Instructions

Before operating the unit,
please read this manual thoroughly,

L22R1W

WARNING AND CAUTION

IMPORTANT SAFETY INSTRUCTIONS

Important Safety Instructions

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the plug.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15) The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
16) The mains plug or appliance inlet is used as the disconnect device, remain it readily operable during the apparatus normal use.

Remote Control

Installing Batteries

Insert two size AAA batteries matching the +/-polarities of the battery to the +/- marks inside the battery compartment.

2XAAA
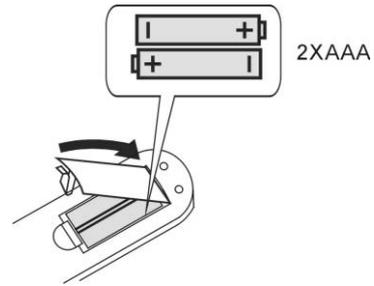

Precautions

Make sure that there is no obstacle between the remote controller and television set.
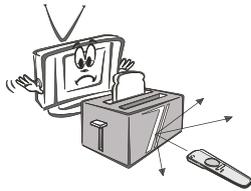

As strong light may interfere with the signals, change your position to operate the remote control if the television cannot be turned on or off as expected.

Keep the remote control away from heat sources or humid areas to ensure effective performance of the remote.
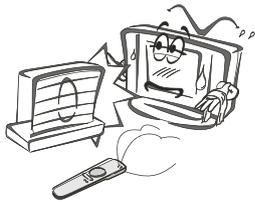

Make sure that two AAA depending up the model alkaline batteries are loaded. The batteries must be of the same type, must be inserted properly, and must not be rechargeable.

socket

ANT IN

RF coaxial wire (75 ohm)

VHF antenna
UHF antenna

outdoor
antenna

Be careful not to bend the bronze
wire when connecting the antenna.

Single-family Dwellings /Houses
(Connect to wall jack for outdoor antenna)

ANT IN

VHF   UHF
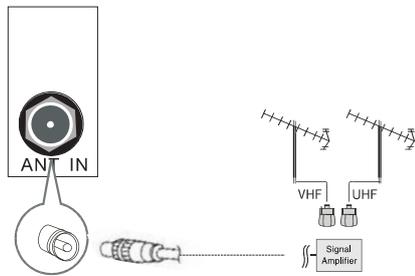

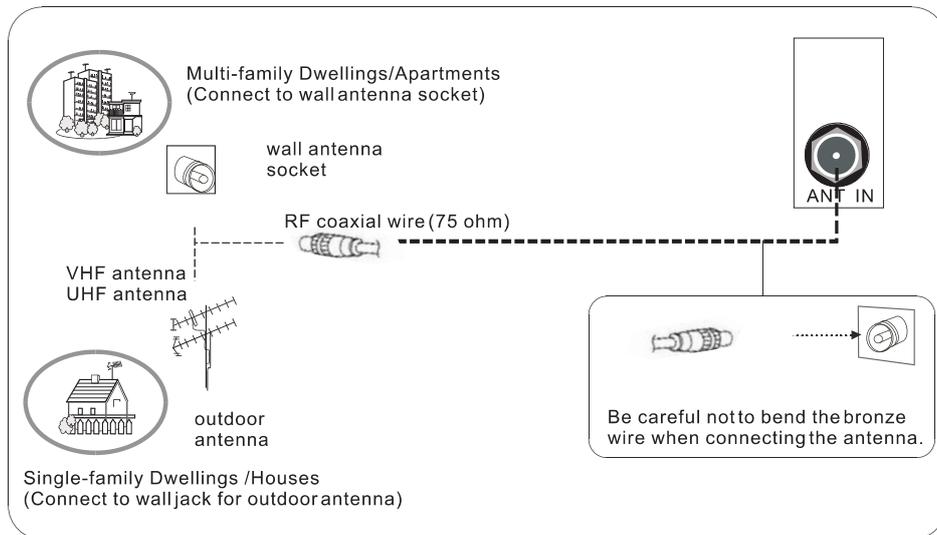

Signal
Amplifier

● To improve picture quality in a poor
   signal area, purchase and install a
   signal amplifier.
● If the antenna needs to be split for two
   TV's, install a "2-Way Signal Splitter"
   in the connections.
● If the antenna is not installed properly,
   contact your dealer for assistance.

Note: All cables shown are just for example.

Connection Instructions

PC Setup

You can use your LCD-TV as a monitor for your personal computer using a VGA cable (not supplied).

Connection and use steps:

1. Read the user guide supplied with your computer and ensure that it has a VGA connector;
2. Make sure that the power of the LCD -TV and the PC are off;
3. Connect a D type 15-pin VGA interface cable (not supplied) to the VGA video interface connector on the PC. Then connect the other end to the PC video interface connector on the back of the LCD-TV. Tighten the screws on the VGA connectors once they are firmly connected;
4. Turn on the power of the LCD-TV first , and then turn on the power of the PC;
5. Press **INPUT** button to set the video input mode of the LCD-TV to PC;
6. Check the image on your TV. There may be noise associated with the resolution, vertical pattern, contrast or brightness in PC mode. If noise is present, change the PC mode to another resolution, change the refresh rate to another rate or adjust the brightness and contrast on the menu until the picture is clear. If the refresh rate of the PC graphic card can not be changed, change the PC graphic card or consult the manufacturer of the PC graphic card.
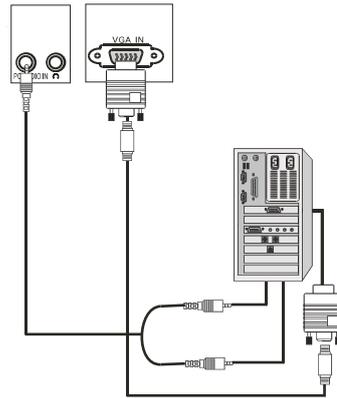

Resolution

Mode	Resolution	Line frequency (Khz)	Frame frequency (Hz)
VGA	640*480	31.5KHz	60Hz
SVGA	800*600	37.9KHz	60Hz
XGA	1024*768	48.4KHz	60Hz

Note: All above listed are subject to VESA Criteria.

YPbPr Input

How to connect
Connect the DVD video outputs (Y, PB, PR) to the COMPONENT(Y, Pb, Pr) IN jacks on the TV and connect the DVD audio outputs to the AUDIO IN jacks on the TV, as shown in the figure.
NOTE: If your DVD player does not have component video output, use S-Video.
How to use
1. Turn on the DVD player, insert a DVD.
2. Use **INPUT** button on the remote control to select.
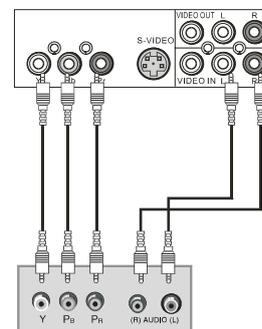

Connection Instructions

Video Player Setup

To avoid picture noise (interference), leave an adequate distance between the Video Player and TV.

Connection and use steps:
1. Read the user guide supplied with your AV devices and ensure that it has S-Video connectors;
2. Make sure that the power of the LCD-TV and the AV device are off;

Connection Option 1
Set Video Player output switch to 3 or 4 and then tune TV to the same channel number.

Connection Option 2
1. Connect the audio and Svideo cables from the Video Player's output acks to the TV input jacks, as shown in the figure.
2. Insert a video tape into the Video Player and press PLAY on the Video Player . (Refer to the Video Player owner's manual.)
3. Turn on the power of the LCD-TV first ; and then turn on the power of the AV device;
4. Press **INPUT** button to set the video input mode of the LCD-TV to S-VIDEO mode .
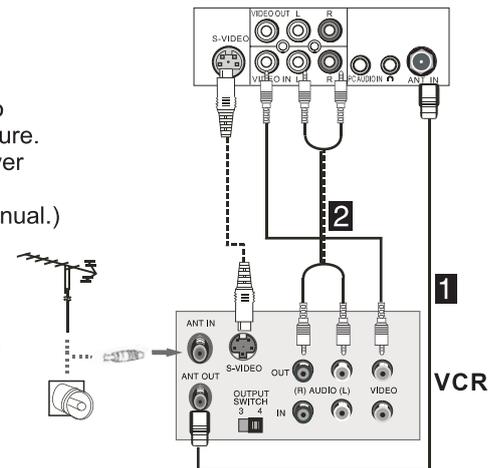

Connection Instructions

Cable TV Setup

After subscribing to a cable TV service from a local provider you can watch cable TV programming. The TV cannot display TV programming unless a TV tuner device or cable TV converter box is connected to the TV.
For further information regarding cable TV service, contact your local cable TV service provider(s).

Connection Option 1
1. Select 3 or 4 with channel switch on cable box.
2. Tune the TV channel to the same selected output channel on cable box.
3. Select channels at the cable box or with the cable box remote control.

Connection Option 2
1. Connect the audio and video cables from the Cable Box's output jacks to the TV input jacks, as shown in the figure. When connecting the TV to a Cable Box, match the jack colors
   (Video = yellow, Audio Left = white, and Audio Right = red).
2. Select the input source by using the **INPUT** button on the remote control.
3. Select your desired channel with the remote control for cable box.

Cable Box
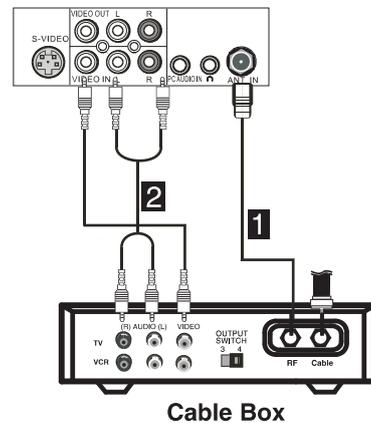

External AV Source Setup

How to connect
Connect the audio and video cables from the external equipment's output jacks to the TV input jacks, as shown in the figure. When connecting the TV to external equipment, match the jack colors (Video = yellow, Audio Left = white, and Audio Right = red).

How to use
1. Select the input source by using the **INPUT** button on the remote control.
2. Operate the corresponding external equipment. Refer to external equipment operating guide.

Camcorder

Video Game Set
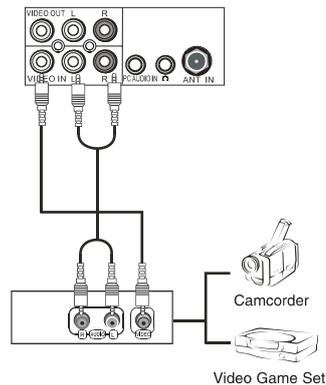

Basic Operating Instructions

Turn on the LCD-TV
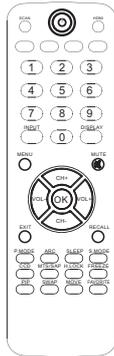

When the **POWER** button on the remote control is pressed and the LCD-TV is turned on, the indicator light on the front of the LCD-TV changes from red to green. When the LCD-TV is turned off using the POWER button, the LCD-TV will go into standby mode and the indicator light turns red.

Note:
The display of the input mode will disappear in about 8 seconds.

You can also turn on the TV from standby mode by pressing CH +/- .

Switch Among Different Inputs: TV/AV/S-VIDEO/COMPONENT/PC/HDMI. Each time you press **INPUT** button, and then press CH+/- to select: TV/AV/ S-VIDEO/COMPONENT/PC/HDMI, press VOL+ to confirm.

Audio Control

1. Press **VOL+** button to increase the volume. A number will appear on screen indicating the volume level.
2. Press **VOL-** button to decrease the volume. A number will appear on screen indicating the volume level.

MUTE button

1. Press **MUTE** button to mute the sound temporarily. A mute icon appears on the screen.
2. Press **MUTE** button again or **VOL+** to restore the sound. The mute icon disappears.

Select the TV Channel You Want

You can use the number keys on the remote control to directly select TV channels. And you can press the keys on the remote control or on the panel to make a selection.

P.MODE Mode

Press **P.MODE** button on the remote control for menu display . For desired mode as follows: Standard→ Soft→Bright→User.

Basic Operating Instructions

S.MODE Mode

Press S.**MODE** button on the remote control for menu display . For desired mode as follows: Standard→ Theater→Music→User.

SLEEP button

Press **SLEEP** button to set the time : SLEEP Off-SLEEP 5Min-SLEEP 10Min-SLEEP 15Min-SLEEP 30Min-SLEEP 45Min-SLEEP 60Min-SLEEP 90Min-SLEEP 120Min-SLEEP 180Min-SLEEP 240Min.
This feature allows you to turn off the television after a pre-selected number of minutes.

H. LOCK

Press H.LOCK to enter it and input the password correctly, the H.LOCK menu will appear on the screen(The initial password is 0000).
Change password: The password can be changed. Press CH+/- to select Change password and VOL+/OK to enter. The screen will display New PW:----, then enter the new password and the screen display Confirm PW:----, if the same password is input correctly twice, the old password will be changed.
Tuner Lock: The tuner can be locked. Press CH+/- to select.
Preset Source: Preset the source.
Preset CH.: Preset the channel.
Source Lock: The source can be locked. Press CH+/- to select.

Troubleshooting Guide

To assist in location possible faults use help guide below.

Troubleshooting

No picture, no sound	Verify if the television is properly plugged in. Verify if the television is properly supplied with power. Verify that electricity is available.
Blank screen	Verify if correct signals are input. Press INPUT button to change signal input to TV input. Restart the television of power supply is interrupted.
No sound	Press MUTE button and verify if Mute mode is on. Switch to another channel and verify if the same problem happens. Press VOL+ button to see if the problem can be solved.
Poor sound	Verify if sound system is functional. Refer to chapter on adjusting.
No picture in some channel	Verify if correct channel is selected. Adjust the antenna. Make adjustments by FINE TUNE
No color for some channel program (black and white)	Verify if the same problem exists in other channels. Check picture and sound systems. Refer to relative instructions in the Manual for color adjust.
Spots with some or all pictures	Verify if the antenna is correctly connected. Verify if the antenna is in good condition. Make fine adjustment of channel.
Abnormal functioning	Disconnect the television from power supply and, 10 seconds later, reconnect to the power supply. If the problem still exists, contact an authorized service depot for technical assistance.

Note:

1.If the fault can not be repaired using the above guide consult with your local authorized service center.

2.The TV set must only be repaired by a qualified registered service person. Never attempt to remove the back cover as the TV set has dangerous voltages levels inside that may be fatal or cause fire.

1 YEAR WARRANTY
HYUNDAI

WARRANTY

HYUNDAI warrants to the purchaser of this TV set that it is free from defects in material and workmanship. The Product is warranted against manufacturing defects for a period of 1 year from the date of purchase as per terms and conditions mentioned here below. In the event of any complaint, contact our nearest HYUNDAI Service Centre.

TERMS & CONDITIONS

1. The warranty is void if the set is not used in accordance with the instructions given in the instruction manual.
2. The warranty does not extend to the set which has been damaged due to misuse, neglect, accident or improper installation. Damages caused by pests or by natural calamities are also not covered by this warranty.
3. This warranty does not cover loss or damage in transit, whether carried by the company's transport or by the purchaser.
4. The company shall not be liable for any delay in rectifying the set, in the event of non-availability of the components and shall in no way be responsible for any losses, direct or indirect, arising out of the delay, if any.
5. The warranty does not hold good, if the set is repaired by any agency non authorised by the company, the serial number of the set is deleted or altered or if any modification is made in the circuitry of the set.
6. The warranty does not extend to accessories, if any, supplied with the set.
7. In the event the set requires attention, the purchaser should arrange to deliver the same to the nearest service centre at his/her own cost.
8. The warranty shall be confined to the first purchaser of the set only.
9. The warranty is issued subject to the jurisdiction of civil courts at Mumbai only.
10. This set is meant for home entertainment purpose. Warranty is not valid if the set is used for commercial purpose.

The warranty card should be completely filled and service station copy dispatched to the nearest service centre within ten days from the date of purchase. Any changes in address should be notified to the service centre immediately.

NOTE:

- HYUNDAI will not be responsible for any injury, loss or damage, direct or consequential, arising out the use of inability to use this color television set.
- The warranty stands void in case of transfer of ownership of this colour television set.
- In case of replacement of any part the defective part shall owned and possessed by the company.
