

Superior Picture Quality and Sound

This widescreen TV delivers excellent picture quality with 100 Hz Digital Scan and Digital Crystal Clear technology for optimal contrast, color and sharpness. Virtual Dolby Surround Sound adds an extra dimension to the viewing experience. I Tuner PIP allows another viewing of a different movie from external source.

Vivid, natural and razor sharp images

- *Blackline S provides a high-contrast, real-flat picture*
- *100 Hz Digital Scan produces a stable, more relaxing picture*
- *Digital Crystal Clear provides vivid cinema-like images*
- *Active Control optimizes pictures whatever the source*

Impressive sound

- *Virtual Dolby® Surround needs no extra rear speakers*

Great convenience

- *Enjoy faster access to 1200 teletext pages*
- *Single Tuner PiP for watching 2 programs at the same time*
- *View 2 teletext pages side by side across a widescreen TV*
- *Instant access to video and text display on the same channel*

32" 100 Hz Widescreen TV

32PW8739

Product information

Picture

- Screen Size : 32" (82 cm)
- Visible screen size : 76 cm (32")
- Picture Tube : Real Flat Black Line S
- 100 Hz Digital Scan

- Easy Link : Pre-set download, WYSIWYR,
One Touch Record

Reception

- Tuning System : PLL digital tuning
- Tuner : VHF, UHF, S-Channel,
Hyperband
- Aerial Input : 75 ohm Coaxial
- TV System : See table
- Stereo System : See table
- Video Playback : NTSC 4.43/3.58

Miscellaneous

- Mains : AC 220-240V +/- 10%
- Power Consumption : 115 W Normal
Operation <1 W
Stand by
- Set Weight : 54 kg
- Weight Incl. Packaging: 57 kg
- Set Dimension : 860 x 552 x 537 mm
(WxHxD)
- Box Dims : 946 x 674 x 674 mm
(WxHxD)
- TV Colour : Pearl White Silver
(11092)

Product highlights

Real Flat Black Line S

Philips TV picture tube provides non-distorted picture quality, while offering a wider viewing angle without light reflections. Thanks to the highly pigmented phosphors, the brightness and contrast performance are considerably improved compared to conventional picture tubes.

100Hz Digital Scan

Conventional Televisions show a picture by scanning 50 times per second (50 Hertz). This frequency can be detected by the human eye in the form of a field flickering picture. 100 Hertz sets show a picture by scanning 100 times per second eliminating the field flickering. Philips' Digital Scan doubles the number of field changes thus also eliminating visible line flicker. The result is an absolute stable picture relaxing for your eyes.

Digital Crystal Clear

A unique package of picture innovations including Luminance Transient Improvement, Scavem, Combfilter, Colour Transient Improvement. Digital Crystal Clear, using 10 bit processing, offers 30% more contrast, natural colors and a high level of detail.

Dolby Virtual

Dolby processing circuitry for an enhanced cinema surround sound effect without the need for rear speakers.

1200 Page Easytext

Extremely fast access to many text pages and the ability to scroll through subpages without waiting.

Teletext Dual Screen

The ability to show a picture and text side by side from the same channel.

Twin Page Teletext

You can watch 2 pages of the Teletext page consecutively, display on 2 halves of the screen.

Top Controls

Volume and channel change controls on top of the tv to enable easy adjustment without the remote control.

Side Connections

Connections for headphone and other inputs such as camcorder, side entry for ease of use.
