## Installing Batteries

Your Brew Master requires 2 AAA batteries. Be sure to review "Battery Information" on page 16. To install batteries, carefully turn Brew Master over so that the top-side is facedown on a soft surface, such as a towel or magazine. You'll find the battery compartment on the unit's back.

Using your finger or thumb to push in the locking tab on the com-

partment lid, lift the lid off. Install 2 AAA batteries, making sure to match the polarity (+ and -) with the diagram inside the battery compartment. Place the battery compartment lid's two smaller tabs in their slots and snap the compartment door shut again. If, after you install batteries, the LCD display is blank, press the reset button.

### AN OVERVIEW: WHAT BREW MASTER CAN DO FOR YOU

No one will suspect you aren't a knowledgeable connoisseur of beer as long as you have Brew Master within your reach! This indispensable tool provides you instant access to reviews and information on over 1,500 rated brews.

When viewing information on a selected brewery's beer, you'll see that Brew Master displays information in the following way. First the beer's score will appear at the top of the screen, along with a number of dollar signs indicating how expensive a brew is. (\$\$\$ indicates an expensive beer.) Lower on the screen you'll be able to scroll through and select additional types of information, including the nation of origin, type and style of the beer, plus distribution and bottling information. You can also select to read a review about a particular beer.

You can look up beers according to **BEERS**, **SCORE**, **TYPE**, **STYLE**, **LOCATION**, **STATE**, **BREWERY**, **ALCOHOL CONTENT**, **DISTRIBUTION**, and how they are **BOTTLED** (commercially, privately). Brew Master also lets you store in its memory up to 25 beers of special

interest to you for quick reference. And if you select **FOOD & BEER PAIRINGS**, Brew Master can also help you choose the best type of beer to enjoy with the food you'll have for dinner tonight or that you'll serve at your next party.

Selecting **BEER & HEALTH** lets you read articles on that topic from *All About Beer Magazine*. Toasts, bar games and bar jokes, plus Oktoberfest locations and times, are all included under **FUN**. And under **OTHER INFORMATION** Brew Master gives you information on award-winning beers, famous breweries, and legal drinking and purchasing ages worldwide. Brew Master even provides you with taxi phone numbers in case you need to call one to get home safely, whether you are close to home or traveling abroad.

### GETTING STARTED

After you have inserted new batteries, Brew Master briefly displays:

WELCOME TO  
EXCALIBUR  
ELECTRONICS'  
BREW MASTER

You'll also hear the tempting sound of a bottle being opened and a voice welcoming you. Simply

wait two seconds for Brew Master to continue on its own, or push any key to proceed to the following home (starting) menu. The home menu looks like this:

SEARCHES  
FOOD & BEER PAIRINGS  
BEER & HEALTH  
FUN  
OTHER INFORMATION  
SAVED [NONE]  
SET UP

Scroll through this menu by pressing the **UP** or **DOWN** arrow keys. You'll see that a right arrow marks your position in the list. Just press the **UP** or **DOWN** arrows repeatedly to proceed one line at a time. After scrolling to a desired item, simply press **ON/ENTER** to make your selection.

*Note: If a word or item is longer than 18 characters, it is too long to fit entirely on the screen if compressed text is turned on. (If compressed mode is turned off, no more than 12 characters will appear on a line at once.) To read a longer line entirely, use the direction buttons to scroll to that line. Brew Master will scroll from right to left to let you read the remaining characters. (See **SETUP**, below, to adjust the scrolling speed.)*

### SEARCHING BEERS

Scroll to SEARCHES, press **ON/ENTER** to confirm your selection. You'll then see ten choices to help you search for the exact kind of information you want:

- BEERS
- SCORE
- TYPE
- STYLE
- LOCATION
- STATE
- BREWERY
- ALCOHOL CONTENT
- DISTRIBUTION
- BOTTLED

Names of breweries and also beers are listed alphabetically in the *BEERS* list. (Both have been included in order to make it easier for you to look up what you want.)

*Tip: For faster scrolling, see "Using the ABC Function," page 9.*

After you scroll to the brewery or beer you'd like information about, for example ABBAYE D'AULNE, simply press **ON/ENTER**. If the item you chose is a brewery, such as ABBAYE D'AULNE, press **ON/ENTER** a second time to advance to the specific beer designation. Your screen will look similar to this:

```
SCORE 95 $$$
ABBAYE D'AULNE
  (BEER NAME
   SCROLLS HERE)
REVIEW +
NATION: BELGIUM
TYPE: ALE
STYLE: WHITE BEER
DISTRIBUTION: INTER
  NATIONALLY
BOTTLED:
  COMMERCIALLY
  BOTTLED
```

Remember that if a line contains over 12 characters, or 18 when the compressed text mode is turned on, it will scroll from right to left when you place the arrow in front of the line by using the **UP** or **DOWN** arrows. On this screen, only **REVIEW** can be selected for additional information, which is indicated by the + sign. If you scroll to **REVIEW** and press **ON/ENTER**, you'll hear the sound of a bottle being opened and beer poured into a glass. New information now appears, such as:

```
SCORE 95 $$$
ABBAYE D'AULNE
  (BELGIUM) BLANCHE
  DE CHARLEROI
HAZY PALE

APPEARANCE

```

Use the arrow keys to scroll through the review, or hold down the **DOWN** key to advance more quickly.
