OFFICIAL FANTASY FOOTBALL DRAFT KIT

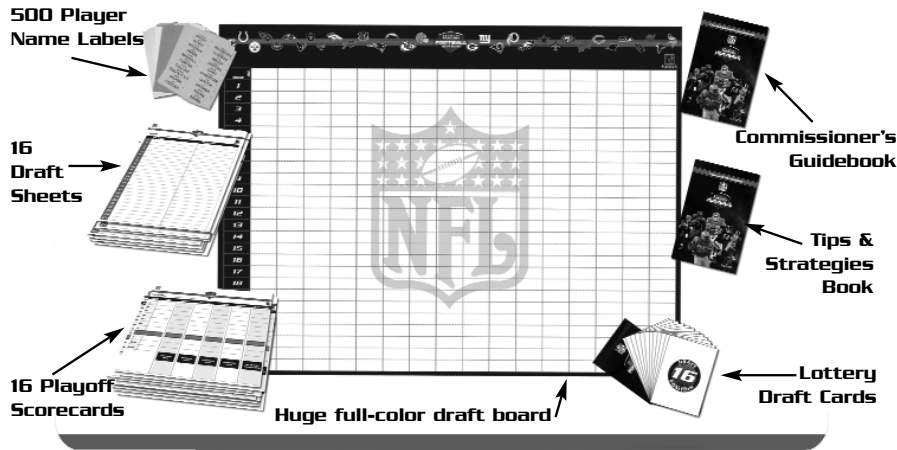

Here's What's Included!

Model No. 338

Congratulations on your purchase of The NFL Official Fantasy Football Draft Kit by Excalibur Electronics, Inc. It includes everything you need to supplement your online Fantasy Football experience. The draft kit works for any league and any website.

Here's What's Included!

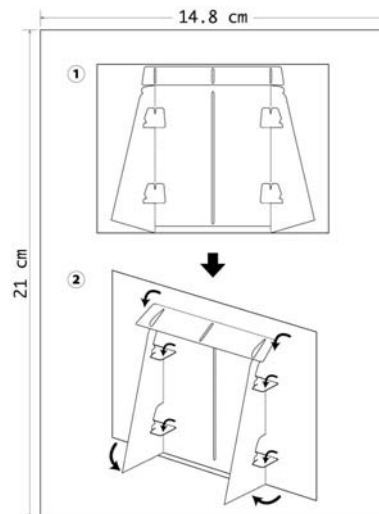

NFL Draft Board:

Your NFL Draft Board can accommodate up to 16 teams and leagues that use up to 25 draft rounds. Simply press the player name labels onto the board as you conduct each round of your draft.

To assemble your NFL Draft Board, carefully unfold the cardboard until it's flat. Lift up the two vertical flaps. Then carefully lift up all of the horizontal flaps, starting from the top of the board. Press the horizontal flaps firmly in place against the vertical flaps. Do this for both sides, as shown in Figures 1 and 2.

Once assembled, your NFL Draft Board should be able to stand up on its own.

500 Player Name Labels:

Your Draft Kit includes 500 total player labels. There are 450 pre-printed player labels of the best fantasy football players and top rookies of the 2006 NFL draft. It also includes 50 blank labels so you can fill in the names of any players you want to draft but may not be listed.

All of the labels are color coded by position.

16 Draft Sheets:

Every person or team uses a draft sheet as their roster to keep track of their players and their positions.

Commissioner's Guidebook:

The Commissioner's Guidebook is the one-stop resource for your Fantasy Football game. The Commissioner should transcribe the league rules and scoring system from your fantasy football website for easy reference. There's also space to keep your league members' contact information, and room for additional notes.

Tips & Strategies Book:

The Tips & Strategies Book includes

all of the rules, tips and strategies for your Fantasy Football league. We recommend that all participating players read this book prior to playing.

Lottery Draft Cards:

Your Draft Kit includes 16 lottery draft cards. If it's an 8-player league, only use cards 1-8. Shuffle and deal to every player to determine the order of the draft.

BONUS GAME!

16 Playoff Scorecards:

Every team is issued a Playoff Scorecard. This is for a separate bonus game once the playoffs begin.

Choose any fantasy football player on any team participating in the playoffs. There is no draft, no trades, no free agency—and any two teams can use the same players. Every owner will have a complete team.

You can earn points depending on your players' performance for each of the playoff games. If a team loses in the playoffs, you don't earn any points for that player for the remainder of the season. This roster is kept throughout the playoffs.
