## Introduction:

RHRC-12001 Media Center Remote Control with IR605/Q Receiver is your best solution to control the MCE on your Desktop or Laptop. It is compatible with Microsoft® Windows® MCE certification and Green Button regulation. The easy connection between RHRC-12001 and IR605/Q makes your entertainment more joyful.

## Appearance:

Media Center Remote Control: RHRC-12001

Receiver: IR605/Q

## Features :

### RHRC-12001 Remote Control

1. Microsoft® Windows® MCE certification and Green Button support
2. With all of the buttons and functions necessary for Microsoft® certification, including official Green Button.
3. Small USB dongle style receiver
4. Use standard Microsoft® drivers, no need to install drivers.
5. It could wake the system from S1 or S3
6. Infrared Rays Frequency : 38KHz ; Infrared Rays transmission distance : 21 ft-33 ft

### IR605/Q Receiver

1. Small USB dongle type Receiver and easy to connect with your computer.
2. Support one indication LED for the system level interaction: blink during working mode and turned off during sleep mode.
3. Use in-box Windows® drivers.
4. RC6, QP and MCIR keyboard protocols are supported
5. Receive the signal from MCE remote control or MCE keyboard using a normal IR receiver.
6. It can wake the system from sleep mode.
7. It consumes around 1.5mA in sleep mode.

## Package Contents :

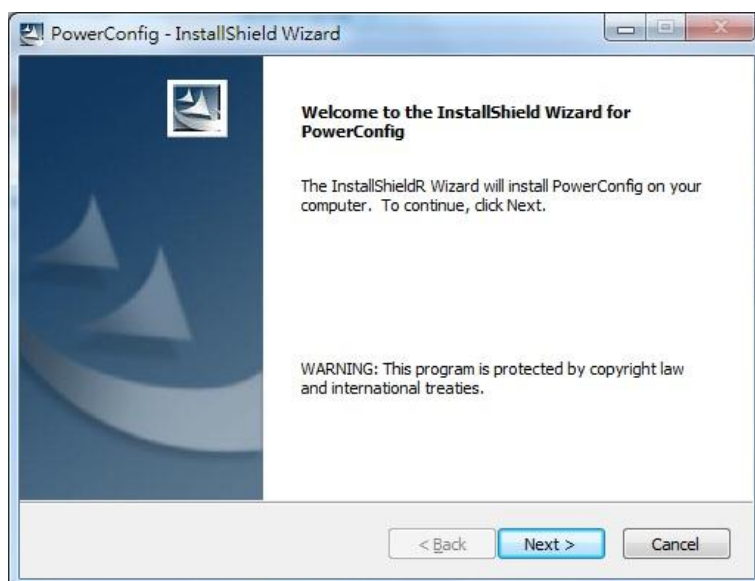

- Media Center Remote Controller (RHRC-12001) x 1
- Receiver IR605/Q (USB Port) x 1
- User Manual
- AAA battery x 2
- USB extension cable x 1
- Installation CD ( for one click to access Netflix feature )

## System Requirements :

- Intel® Pentium® 1GHz CPU or faster
- 512MB RAM or above (1G recommended)
- Desktop or laptop computer running Windows 8 PRO, Windows® 7 Home Premium, Professional or Ultimate or Windows® Vista Home Premium or Ultimate
- USB Port; PC platform
- Graphics card capable of DirectX9

## Installation and Operation :

1. Battery Installation -- Open the battery cover of the Remote Control and install 2 AAA batteries correctly.
2. Receiver Installation -- Plugging IR605/Q Receiver (with USB Port on it) into the USB port of your computer.  
  
If your package comes with a USB cable, you can use the USB cable to bridge between your USB port and the IR605/Q Receiver and then put the IR605/Q Receiver in front of you to get a better signal transmission.
3. **Software Installation** -- Insert the Installation CD into your CD-ROM or DVD-ROM drive. Click next and follow the installation program.

Installation will install PowerConfig in your system. If the autorun is disable. Double click the CD-ROM driver ID, and then double-click the PowerConfig.exe. PowerConfig.exe is green program and it will not waste any system resource. Click exit to close program, there is no uninstall procedure.

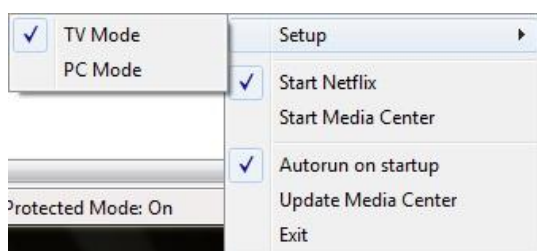

4. **Hardware Operation** -- Before you start use, please make sure the distance between RHRC-12001 Remote Control and IR605/Q Receiver is within the effective range and the Remote Control is aimed at the IR Receiver. You can start using your Remote Control by pressing any key you want.

5. **Software Operation** – After you execute PowerConfig, there is an icon  show in task bar. Click right mouse key on the icon to get the menu.

This setup will re-configure the green button function. When you choose “Start Netflix”, it means the system will start Media Center and go to Netflix program directly. Or you can choose “Start Media” to go back to default setting.

6. You can choose TV mode or PC mode from Setup.

\* TV mode will change the power configuration of Notebook, let display keep ON when close the panel. Change to PC Mode when you use battery power.

and start to Media Center or Netflix once you press the green button.

Choose Autorun on startup can execute PowerConfig when windows boot up. Finally, press Exit to quit PowerConfig.
