

BARBECUE CARTS

BARBECUE CARTS

THE PERFECT  
**BARBECUE CART**  
HAS NEVER BEEN MORE CONVENIENT

For the outdoor enthusiast, there is no greater joy than cooking outside. Whether it's your home backyard or your apartment balcony, Cal Flame offers the perfect barbecue cart. These professional-grade grills are crafted with the quality that discerning chefs require and mobility that many people demand. Whether your cooking preference is charcoal, liquid propane, natural gas or electricity, Cal Flame has the grill for you.

Built-in storage, side burners and folding trays provide the convenience of complete outdoor kitchens while locking casters allow you to share your cuisine with neighbors or discreetly hideaway your grill. Best of all, your grill can represent your signature cooking style with an assortment of grill accessories. Add smoker trays for personal smoky flavor. Insert high-heat sear zones to lock in juices and flavor. An optional fryer makes preparing crowd-favorite fries a reality. Taste the difference with Cal Flame today!

## PROFESSIONAL GRILLS

### Why Grill with Cal Flame?

Cal Flame has distinguished itself as an elite BBQ cart manufacturer by providing the best craftsmanship, the finest materials and the most experience as an outdoor outfitter. Compare for yourself the unbeatable value and exclusive features that Cal Flame offers you.

### The Choice Is Yours

Your recipes and cooking style are as unique as you are. Only Cal Flame offers barbecue carts that utilize natural gas, liquid propane or charcoal. Electric grills are the perfect solution for apartments. Best of all, these carts come in the right size to suit your living space.

### Professional Grills

Cal Flame packs the most features any one grill can handle. Our grills feature the largest cooking surface, warming racks that can tuck away and stainless steel burners with individual ignition knobs. A long-sensor temperature gauge is built directly into the hood for precise grilling. Smooth-rolling 12V rotisseries can turn up to 35-pounds and feature reversible left and right grill hookups. Self-cleaning grill lights make nighttime cooking convenient.

### Lasting Construction

Every barbecue cart is constructed with durable 304 commercial-grade stainless steel. Your cart is built to withstand all weather conditions and is resistant to rust and corrosion. Additionally, the grill hood is double-walled and welded for maximum heat retention.

### Functional Design & Safety Features

Built-in side trays flip up to create more counter space and conveniently fold down when it's time to put the cart away. Side trays come in two designs—with either S-hooks for hanging utensils or a handle that doubles as a towel holder. Locking casters make it easy to move your grill wherever you want or keep it from moving—even on an incline. Finally, safety-locks are installed on each burner knob because your family's safety is important to Cal Flame.

### Exclusives

Only Cal Flame offers exclusive V-shaped grates that are designed to guide grill utensils and keep smaller food from falling through. The grates are also removable in sections and are dishwasher safe. Cal Flame is the only manufacturer that provides barbecue carts with convection technology that circulates hot air across your grill—reducing cooking time.

**5 Burner Convection (w/ Double Side Burner/Refrig.)**  
**Part Number: CR095000DSCR-P**
