Data Sheet

Pocket LOOX N100 Series
It's my way

Navigation Pure – Your Personal Pocket Navigation Assistant

Pocket LOOX N100 Series provides everyone on the move with ease to use navigation.
It offers mobile navigation in the lightest, smallest and most flexible design with entertainment from a unique music playing feature.

Outperforming even larger fix installed navigation solutions, the Pocket LOOX N100 Series is the first pocket navigator with the brand new NAVIGON software MobileNavigator|6.

Weighing only 100 grams, the new Pocket LOOX N100 Series is the lightest and smallest navigation system on the market.
That's why it is perfect for any pocket and can be used, whether you are driving, cycling or on foot.

A user interface, which is visually very easy to follow, ensures a uniquely ease of use.
Either when entering a street, postcode or location or, when listening to the integrated MP3 music player (also compatible with WMA and AAC format), you receive perfect guidance through the menu.

Exchangeable front covers allow a customized design.

Highlights

- Lightest and smallest navigation device
  world wide – always at your side
