

MPC-701M30E Transflective MPC-701M50E TFT Back-Lit

CASIO
the unexpected extra™

A powerful Pen Tablet for vertical market applications indoor and outdoor

The new Casio MPC-701 Pen Note Pad / Tablet PC is your mobile application solution for:

- Electronic document reference
- P.O.S. / Graphic order entry terminal
- Accident reporting and damage estimation
- Sales presentations
- Delivery and inventory control
- Financial / Trading applications
- Many more Uses

OS	CPU	MEMORY	HDD	DISPLAY	OR	DISPLAY	BATTERY
Windows® 2000 Professional	TM5800 800MHz	128MB	20GB	8.4-inch VE- Transflective TFT LCD		8.4-inch Back-lit TFT LCD	8 hours*

This NEW business oriented Pen Tablet PC comes with the latest features and technology ;

Manufactured to withstand business environments

- The Shock absorbing mechanism protects the built-in HDD and other components from damage.
- The Water splash resistance with IPx2 level makes it possible for operation outside.

Dual batteries system allows for long uninterrupted operation

- Dual batteries system provides power for over 8 hours*.
- *The duration may vary depending on the surrounding temperature and humidity.
- The Hot Swap feature allows continuous use of the PC while changing a run down battery.

The vivid display and automatic controlled backlight for the display and the numeric keyboard make it possible to use under direct sunlight or in the total darkness.

- 8.4-inch (800 x 600 dots) VE**-Transflective TFT color LCD with automatic backlight controlled by an illumination sensor provides the best visibility in its class of Pen Tablet PCs under direct sunlight or in the total darkness.
- The key-backlight with automatic ON/OFF control lights up each numeric key allowing operation in total darkness.

Industry standard interfaces for expandability and flexibility

- Integrated industry standard interfaces and a wide range of options are available allowing expandability and flexibility as your business application varies.

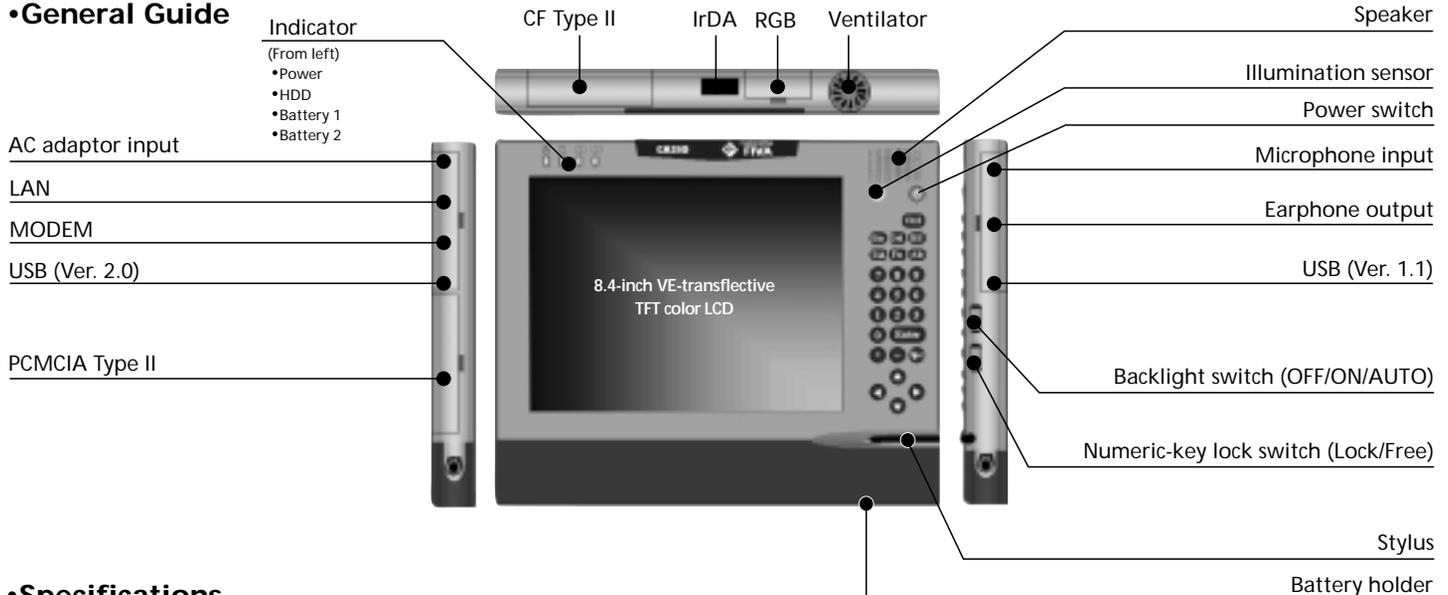

** VE; Visible Everywhere
