7" Portable DIGITAL TV

To assure the product to work in best status
Please read the users manual carefully before operation and keep it well for future use

WARNING AND SAFETY PRECAUTION

Warning

Do not open the TV unit and attempt any service. Any TV unit that has its seal tampered will void the factory warranty. Opening any service panel may also cause electric shock. Please contact us for service.

Installation

- There is a ventilation grill placed on back on of the unit in order to avoid overheating the TV. Please make sure to keep any objects at least 10 inches away from the grill.
- Do not expose the TV to direct sun light or other heat-source.
- Do not expose the TV to liquids.
- Do not put magnetized objects near TV unit.

Safety Precautions

- Do not put any objects into the ventilation grill; otherwise, it may cause fire, electric shock or other malfunctions.
- Do not place any liquids (including water) on or near TV.
- Damaged or exposed power cable may cause fire, electric shock or other malfunctions. Please disconnect the power plug by pulling it out gently from the outlet.
- Do not place any heavy objects on the power cable.
- Do not twist power cable in order to avoid short-circuit.
- Please power off the TV and pull out the power plug when not in use.
- Please pull out the power plug, antenna cord and do not touch the antenna during thunder storms.
- Please shut off this TV unit and pull out the power plug when not in use.

Charge indicator /power indicator: the indicator will not light when the power is off. The indicator is red when charging, and it will turn green when charging full. If the power is on, the green indicator indicates that the battery has energy.

Remote Control Appearance

Inserting Batteries Into The Remote Control:
The supplied remote can be used to control the player.
Insert one "CR2025" type batteries into the compartment,
matching + and - as indicated on the inside of the battery
housing. The remote must be pointed directly at the player.

Notes:

1. Avoid exposing the remote control to extremes of temperature e.g. direct sunlight.
2. Ensure that no foreign objects enter the battery housing, especially metal objects.
3. If the player's infra - red sensor sensor is bathed in strong direct sunlight, or intense artificial light, then it may not be able to detect signals sent from the handset.
4. If the remote is not to be used for an extended period then please remove the batteries to avoid leakage and corrosion.

System Connection

There are two options for operating the FM function:

Inserting the FM ANT or the Earphone into the FM ANT input to receive the FM signal. Insert the Earphone to the earphone input to receive the FM signal. At this operation, the earphone works both as the FM ANT to receive the FM signal and also as an earphone to listen.

Note: For best FM signal reception, please move the FM ANT around to search for the best signal. Then, fix the position and keep the FM ANT steady. If you move the FM ANT constantly around you may not get the desired signal you wish.

BATTERY FEATURES

Charging process:

Please first connect the power adapter to the AC power. Insert the DC plug of the power adapter to the DC IN port of the TV. Please make sure that you must switch off the player first so that you can start to charge the TV.

Charging indication:

When the indicator of "CHARGE" is RED, it means that the battery is charging now!

When the indicator of "CHARGE" is GREEN, it means that the battery has been charged fully. Then you can make your TV work now.

Charging time:

Please charge it for 3.5 hours to 4 hours .

After a period time of working , the battery of the TV will be exhaust , then a battery sign will be appeared on the TFT panel. It indicates that you must charge the battery of your TV. If you have not charge it , the player will be standby automatically . So you should charge the battery immediately, when you see the battery sign.

BASIC OPERATION

Remote control range is 5m.

Caution:

Most of the functions can operate on machine, but a few functions only can be used by remote control.
