Noise-Canceling Headphones

# DENON

The AH-NC732 are noise-canceling headphones packed with Denon technology for high-quality sound and the ability to effectively shut out unwanted external noise.

The AH-NC732 noise-canceling headphones combine legendary Denon sound quality with our proprietary Acoustic Optimizer audio balancing system that delivers exceptional acoustic performance. Our exclusive noise-canceling function virtually eliminates unwanted external noise, allowing listeners to enjoy high-quality sound in a peaceful environment, especially useful on long airplane and/or train trips and the like. Wearing comfort over an extended period has been achieved with newly-developed ear cushions along with the compact, light-weight design. The AH-NC732 can also be folded into a compact size for easy carrying. The audio cable can be detached from the headset if you would just like to enjoy the peaceful quiet that the noise-canceling function provides. As well, the headphones can be used with or without the noise-canceling function. With the AH-NC732, listeners can enjoy music to their heart's content in a quiet environment.

- High-quality Denon sound that provides a quiet listening environment

Equipped with Denon's Acoustic Optimizer for superior acoustic characteristics and an active noise-canceling function that reduces external sounds such as airplane or train noise by about 99%, allowing listeners to enjoy high-quality Denon sound in a peaceful environment.

- 40 mm drive units with powerful neodymium magnets, delivering wide dynamic range and a rich, expansive sound

- Newly-developed ear cushions combining low-repulsion urethane and high-grade protein leather

Supporting a comfortable listening environment with a gentle fit and superior sound insulation even on long flights and over extended listening hours.

- Compact, light-weight design

Compact folding construction for easy storage, and light weight of just 146 grams.

- Lower power consumption permits 40 hours of continuous use  
Uses one AAA battery, easily available on the go.

- Comes with detachable 0.7/1.5 meter cables for flexibility in listening situations  
The cable can be conveniently detached from the headphone when you would just like to have the noise-cancelling function.

- Highly rigid, vibration-resistant aluminium connector cover

- Includes compact carrying case accommodating all accessories

- You can enjoy sound even when the noise-canceling function is turned off

- Fully compatible with iPhone/iTouch, with no adapter needed

Detachable cable

#### Main Specifications

Type	Dynamic type (with noise-canceling function)
Drive units	ø 40 mm Neodymium magnet
Input impedance	40 Ω/ohms (when Power is ON)
Sensitivity	105 dB/mW (when Power is ON)
Maximum input	100 mW
Playback frequencies	5 - 28,000 Hz
Battery type	DC 1.5 V, AAA battery x 1
Battery life (Approx.)	40 Hours (when an alkaline battery is used)
Weight (Approx.)	146 g (including a battery, excluding cable)
Accessories	Inflight (Dual) plug adaptor x 1, ø 6.3 mm gold-plated Stereo plug, Detachable cable (0.7 m x 1, 1.5 m x 1), AAA battery x 1, Carrying case x 1
