Region Management Information Region Management Information: This unit is designed and manufactured to respond to the region management information that is encoded on DVDs. If the region number printed on the DVD does not correspond to the region number of this unit, it cannot play that disc.

The region number of this unit is 1.

Disc Function or Operation that is Not Available

When the S symbol appears on the screen, it indicates that the function or operation attempted is not available at that time. This occurs because the DVD manufacturer determines the specific functions of DVDs. Certain functions may not be available on some DVDs. Be sure to read the documentation provided with the DVD.

Icons Used on DVDs

Titles, Chapters and Tracks

- DVDs are divided into "titles" and "chapters". If the disc has more than one movie on it, each movie would be a separate "title". "Chapters" are sections of titles.
- Audio CDs are divided into "tracks". A "track" is usually one song on an audio CD.
- Note

Numbers identify each title, chapter, and track on a disc. Most discs have these numbers recorded on them, but some do not.

SOUND SYSTEM

Dolby Digital

Dolby Digital is a technology developed by Dolby Laboratories. Soundtracks encoded in Dolby Digital can reproduce from one to 5.1 discrete channels of excellent quality audio. The unit automatically recognizes the Dolby Digital bitstream and provides a downmix suitable for two-channel listening. An additional Dolby Digital decoder is required for reproduction of the discrete multi-channel soundtracks available on many DVDs.

Manufactured under license from Dolby Laboratories Dolby' and DI the double-D symbol are trademarks of Dolby Laboratories.

TO INSTALL BATTERIES

- Open the battery door.

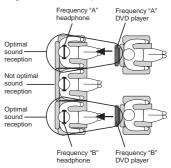

WARNING: Do not dispose of batteries in fire. Batteries may explode or leak CAUTION: Danger of explosion if batteries are incorrectly replaced. Replace only with the same or equivalent type.

IMPORTANT NOTES:

- · The wireless IR headphone is designed to conserve power when not in use. Therefore it will automatically switch off after 2 minutes if no audio signal is received. Press the ON/OFF button on the headphone to reactivate.
- Direct sunlight and other wireless IR signals will degrade the receiving sensor and may cause interference. If you experience such problems, don't mount the mobile DVD player under direct sunlight and turn off other equipment that emits IR signals. IR light travels in a straight line: don't place any object between the Wireless IR
- headphone and the IR LEDs on the mobile DVD player. • If the IR headphone is not used for a long time, please remove the batteries to
- prevent battery leakage and corrosion.

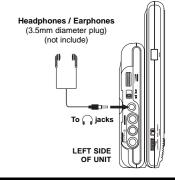

Optimal sound reception

Below shows the reception of the wireless infrared headphone. For optimal sound reception, it is recommended that you place the DVD player in a high position directly facing the wireless headphones.

B. Using Headphones / Earphones

- Turn down the volume before connecting, and then adjust the level
- When headphones / earphones are connected, no sound will emit from the unit's speaker

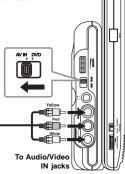

CONNECTIONS

Connecting a Game System

- 1. Turn on the unit. Slide the AV IN / DVD switch to "AV IN"
- 2. Turn on the video equipment and follow the instructions provided with it

- · Make sure to use the correct Audio/Video cable Connecting the plugs incorrectly may cause a weak signal.
- Due to copyright protection, DVD movies cannot be copied. If you copy a DVD movie onto a videotape, the resulting copy will be unclear, with poor sound quality. This is NOT caused by a defective DVD

PLAYING A DISC Basic playback

This owner's manual explains the basic instructions for operating this unit. Some DVDs are produced in a manner that allows specific or limited operation during playback Therefore, this unit may not respond to all operating commands. THIS IS NOT A DÉFECT. Please refer to the instructions accompanying the specific DVD in question for more information about the options available on that DVD.

🕯 🚫 " may appear on the screen during operation. A " 🚫 " means that the desired operation is not permitted by the unit or disc.

- Playing a Disc
 Slide the STANDBY / ON switch on the right side of unit to the ON position.
 Slide the AV IN / DVD switch on the left side of unit to select DVD mode.
- 3. Push the OPEN switch to open the disc door.
- 4. Hold the disc by its sides and carefully place it onto the central spindle in the disc compartment, with the label side facing up; press the disc down until you hear a "click' 5. Push the door to close.
- It takes a short while for your unit to load the disc. After loading, the unit will automatically start playing most DVDs.
- If the unit does not automatically start playing the DVD, press the ► PLAY button.

Pausing Playback (Still Mode) Press the II PAUSE button. To resume normal playback, press the > PLAY button. Each time you press the II PAUSE button, the picture advances one frame

Stopping Playback

Press the STOP button at the location where you want to interrupt playback. To resume Is playback at the position where the disc was stopped, press the ► PLAY button. If you press the ■ STOP button twice, the unit's memory will be cleared and pressing the ► PLAY button will reset the disc to the beginning.

- Skipping to a Different Track
 Press the I++ PREV button repeatedly to skip to the start of the current or previous track.
- Press the **>>I NEXT** button to skip to the next track. · For audio CDs, use the number buttons on the remote control to go directly to the desired track number

Fast Forward/Fast Reverse

- 1. Press the SEARCH ➡ or ◄ SEARCH button when a disc is playing.
- The disc begins a fast scan at two times normal (x2) speed.
 Four speeds are available. Each time the SEARCH button is pressed, the speed of the fast
- scan changes in the following sequences

- Note: You can also press and hold the |</ >> (PREV/NEXT) buttons repeatedly to select different fast
- scan speeds. 2. Press the ► PLAY button when you reach the desired point to resume playback at normal speed

SKIP (Forward / Reverse)

While you are playing a disc, press the **>H NEXT** button to move to the beginning of the next chapter or track. Press the **I + PREV** button to move to the previous chapter or track.

MAINTENANCE

Cleaning the Disc

A defective or soiled disc inserted into the unit can cause sound to drop out during playback.

- Handle the disc by holding its inner and outer edges.
- Do NOT touch the surface of the unlabeled side of the disc. Do NOT stick paper or tape on the surface.
- Do NOT expose the disc to direct sunlight or excessive heat.
- Clean the disc before playback. Wipe the disc from the center outward with a
- cleaning cloth.
- NEVER use solvents such as benzine or alcohol to clean the disc Do NOT use irregular shaped discs (example : heart shaped, octagonal, etc.). They may cause malfunctions.

100

Cleaning the Unit

811-P61091-011

- Be sure to turn the unit off and disconnect the car power adapter before maintaining the unit. Wipe the unit with a dry soft cloth. If the surfaces are extremely dirty, wipe clean with a cloth which has been dipped in a weak soap-and-water solution and wrung out thoroughly. Then wipe with a dry cloth
- Never use alcohol, benzine, thinner, cleaning fluid or other chemicals. Do NOT use compressed air to remove dust

Important Note Before transporting the unit, remove the disc from the disc compartment.
