Before you begin setup, be sure all parts have been above 32°F/0°C for at least 30 minutes.

Adjusting headset for your comfort

Headset is preset for use on right ear. Switch if necessary.

Bend to fit.

During a call adjust speaker volume (how others sound to you) on headset.

Charging your headset

Charge via PC or Charge directly (handy for travel).

⚠ Important: Make sure your headset is inactive while charging.

Red = charging. Green = fully charged (approximately 2 hrs.).

Turning your headset on

Press Headset on/off/pairing button for 1 sec. Blue flash.

Bluetooth Hub Setup and Use (for Desk Phone)

Connecting Bluetooth Hub with desk phone and power supply

- If you are using a GN 1000 (remote handset lifter) or an electronic hook switch lifter, please refer to the user manual on the supplied CD-ROM for instructions.
- If your desk phone has a headset port, see instructions inset.

For desk phones without headset port

1 Disconnect handset from desk phone.

2 Connect handset to Bluetooth Hub.

3 Connect desk phone with Bluetooth Hub using supplied connection cord (F).

4 Connect power supply to Bluetooth Hub.

For desk phones with headset port

1 Connect desk phone with Bluetooth Hub using supplied connection cord (F).

2 Connect power supply to Bluetooth Hub.

Making a test call on your desk phone to adjust settings

If your desk phone has an electronic hookswitch lifter, or you are using a GN 1000 (remote handset lifter), please refer to the User Manual on the supplied CD-ROM for instructions.

1 Place headset on ear.

2 Tap headset Answer/End button.

3 Lift desk phone handset.

4 Listen for dial tone in headset.
To be continued in the next page.

For desk phones with headset port

3 Press the appropriate desk phone button to establish a clear dial tone.

5 If dial tone is missing or unclear, slowly slide the Dial Tone Switch from A – G on the Bluetooth Hub. Dial Tone Switch is preset to setting A (most commonly used).

6 Dial a friend to test settings.

7 Adjust microphone volume (how your voice sounds to others) via Bluetooth Hub.

8 To end call, replace desk phone handset AND tap headset Answer/End button.

 **For desk phones with headset port**

8 Press the appropriate button on desk phone AND tap headset Answer/End button.

Making and ending a call via desk phone

If your desk phone has an electronic hookswitch lifter, or you are using a GN 1000 (remote handset lifter), please refer to the User Manual on the CD-ROM for instructions.

1 Place headset on ear.

2 Tap headset Answer/End button.

3 Lift desk phone handset.

 **For desk phones with headset port**

3 Press the appropriate desk phone button to establish a clear dial tone.

4 Dial number.

4 Dial number.

5 Begin talking.

6 To end call, replace desk phone handset AND tap headset Answer/End button.

 **For desk phones with headset port**

6 For desk phones with headset port, press the appropriate button on desk phone AND tap headset Answer/End button.

Answering an incoming call to desk phone

If your desk phone has an electronic hookswitch lifter, or you are using a GN 1000 (remote handset lifter), please refer to the User Manual on the CD-ROM for instructions.

1 Place headset on ear.

2 Tap headset Answer/End button.

3 Lift desk phone handset.

 **For desk phones with headset port**

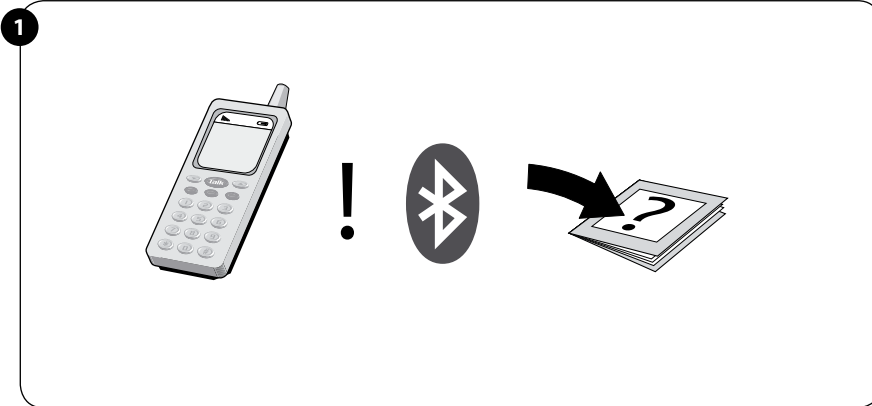

3 Press the appropriate desk phone button to establish a clear dial tone.

4 Begin talking.

Pairing headset to mobile phone (establishes Bluetooth connection)

See your mobile phone User Guide for Bluetooth pairing instructions.

Press headset pairing button for 1 sec.
Blue light indicates open for pairing (5 minutes).

Making and ending a call from mobile phone

Place headset on ear. Dial number on mobile phone and tap Talk/Yes or similar.

Begin talking. To end call, press End/No or similar on mobile phone OR tap headset Answer/End button.

Using Voice Dial (if your mobile phone supports this feature)

1 Press headset Answer/End button for 1 sec.

2 Hear voice dial signal. (Mobile phone dependent)

3 Give voice dial command.

Answering an incoming call to mobile phone

1 Tap headset Answer/End button.

2 Begin talking.
