Big Dome Deterrent

Professional Real or Imitation Housing

Large indoor/outdoor dome with aluminum wall stand

This classic big dome deterrent is hard to miss and is a formidable weapon in crime prevention. Now you can deter burglary, theft, and vandalism without the high cost of a real security camera. When placed in your home or business, even the most opportunistic criminals will think the premises is guarded by a high-tech surveillance system and go in search of an easier target.

Ideal for perceived surveillance inside a retail store, factory, business, school, hotel or warehouse. The weatherproof outdoor housing also allows it to be used in parking lots, car dealerships, parks, and college campuses. Even when a real surveillance system is in use, this camera will give the impression that a larger area is being monitored.

Use it as:

Dummy Dome

or as

Real Dome with camera inside

Package Contents

- Big Dome Deterrent
