CD-01U / CD-01UPRO

Consultant's Specification

CONSULTANT'S AND SYSTEM DESIGN SPECIFICATIONS

The CD-01U / CD-01UPRO are 1U rack mountable CD players with **slot loading** transports. The CD players provide multiple playback modes, auto cueing, auto-ready, Intro-Check, Pitch Control (+/- 12%), Key Original Function, and fade in/out function (up to 10 seconds in ½ step increments). The CD players are equipped with 20 seconds of RAM buffer for shock protection and both are RS-232 controllable.

Outputs on the CD-01U are unbalanced analog and digital optical S/PDIF. Outputs on the CD-01UPRO are XLR balanced analog and XLR AES/EBU digital. The CD-10UPRO also includes a 15-pin D-sub for parallel control.
