# 1

**XXS** Choose an ear cushion size, extra, extra small (XXS) to large (L), which best fits your ears. Selecting the correct ear cushion size helps ensure a comfortable fit and seal to achieve optimal sound quality.

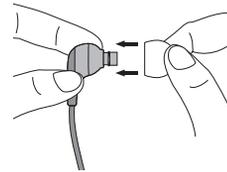

**XS**

**S**

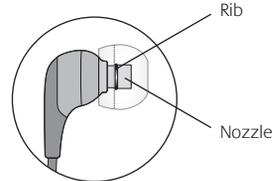

**M**

**L**

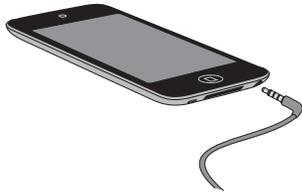

# 2

Attach ear cushions to earphone nozzle. Push ear cushion past rib on nozzle so ear cushion will not separate from nozzle during use.

# 3

Insert the earphone cable connector into the 3.5 mm headphone jack on your iPod® or MP3 player.

# 4

Gently insert earphone into your ear for a good seal: **R** for right ear; **L** for left. Never remove an earphone from your ear by pulling on its cable.

# 5

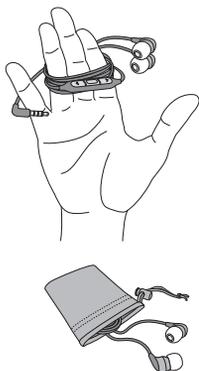

Headset controls are within easy reach:  
a. Click, or press and hold, for volume up.

b. Media controls:

- One click: Play/pause (audio source)
- One click: Call answer/hang up (cell phone)
- Double click: next track (audio source)
- Triple click: previous track (audio source)
- Refer to the compatibility section for supported devices.

c. Click, or press and hold, for volume down.

# 6

Store by wrapping cable around fingers; place earphones inside protective pouch. To clean, remove cushion and wipe with a clean cloth.

## Compatibility

- Audio is supported by all iPod®, iPhone®, and BlackBerry® devices.
- The remote and mic are supported only by iPod nano (4th and 5th generation), iPod classic (120GB, 160GB only), iPod touch (2nd and 3rd generation), iPhone 3GS, iPhone 4 and iPad. The remote is supported by iPod shuffle (3rd generation). Audio is supported by all iPod and iPhone models. Requires latest iPod software.
- The remote is supported by iPod shuffle® (3rd generation). Requires latest iPod software.
- VoiceOver is supported by iPod nano (5th generation) and iPod shuffle (3rd generation).
- Voice Control is supported by iPhone 3GS and iPod touch (Late 2009).
- Volume control functionality is not available with BlackBerry devices.

## Troubleshooting

- No sound/weak sound – ensure that the 3.5 mm headset connector is fully seated into the headphone jack on your iPod, MP3 player, cell phone, laptop, or gaming device. Check the volume setting in your media application. For laptops running Windows® or Mac® OS, make the headset the default audio device. (See operating system documentation for more information.)
- Weak bass – check ear cushion seal; try another ear cushion size.
- Detached ear cushions – firmly attach ear cushions to earphone nozzle. See step 2 on reverse side.
- Diminished sound quality – remove ear cushions, check for blockage in nozzle, and wipe with a clean cloth.
- Missing ear cushions – go to [www.logitech.com](http://www.logitech.com) for replacements.
