THIS IS BEYOND™

LEXA® EYEWEAR SYSTEM ADVANCEMENTS

32132 Rev. A 1/04

A True Eyewear System

Lexa is the only patented anti-fog eyewear system with individual solutions to specific eye protection problems. The Lexa System includes task-specific lens tints and shades, including the Indoor/Outdoor Mirror lens with no backside reflection and the MinimizeR lens that helps protect against welding "flash burn." Plus, Lexa can be transformed into a dust or splash goggle with GoggleGear® accessories, which makes Lexa a true eyewear system.

Beyond the Standard™
 www.aosafety.com

AOSafety

PUTS IT ALL TOGETHER

Lightweight, contoured coverage, available in two lens sizes, and meets ANSI Z87.1-2003 and CSA Z94.3 standards.

Lens Angle Adjustment

Wearers can adjust Lexa to three different lens angles for a customized fit.

Adjustable Temple Length

Temples adjust to four different lengths to correctly fit different faces.

Contoured Coverage

The patented ellipsoidal shape follows and blends with the facial outline to provide optimum, full coverage.

Adjustable Universal-Fit Nosebridge

Forget about needing multiple nosebridges. This new design is soft and pliable so wearers can shape it specifically for their noses. And, once it's shaped, it stays that way.

Task-Specific Lenses

Different lenses are available to meet a variety of job requirements or personal tastes.

DX™ Anti-fog Coating

Others have tried, but no polycarbonate lens coating has ever outperformed DX™ Anti-Fog Lens Coating from AOSafety. It minimizes fogging in even the toughest working conditions.

THE LEXA® EYEWEAR SYSTEM

ONE FOR ALL.

There's no other eyewear system like LEXA. The patented ellipsoidal lens provides outstanding coverage and offers a virtually boundless viewing range. That's just the beginning. By interchanging components, LEXA easily transforms into a variety of task-specific eye protectors. This one-for-all modularity isn't just a convenience plus for wearers. It's an economical advantage for safety budgets, too.

LEXA eyewear features include adjustable temples, DX Anti-fog Hard Coat and Easy-Change® lenses.

Dust GoggleGear for LEXA eyewear snaps on simply to comfortably seal out particulates.

Splash GoggleGear for LEXA eyewear creates the lightest most comfortable splash goggle in the world.
