

STMP3500 AND 3600 EVK/SDK PLATFORMS

• EVK PLATFORMS

— The STMP3500 and STMP3600 Evaluation Platforms (EVK) allows customers to evaluate the SigmaTel platform and firmware in a small battery or USB powered environment. Four versions are available:

- STMP3550 EVK Board
- STMP3560 EVK Board
- STMP3650 EVK Board
- STMP3660 EVK Board

HARDWARE

• ENGINEERING BOARD

— The engineering board is the base unit of the SigmaTel Software Development Platform. Engineering boards are offered for both the STMP3500 and STMP3600 series of products and are the mechanism by which you communicate with the following daughter cards:

- CPU Daughter Card
- NAND Daughter Card
- LCD Daughter Card
- MMC/SD Daughter Card
- FM Tuner Daughter Card

• CPU DAUGHTER CARD

— The CPU Daughter Card is the mechanism by which you control and customize features of the SigmaTel STMP3500 and STMP3600 series products and is distributed with one of the following central processing units (CPUs):

- STMP3550B 144-pin BGA
- STMP3560B 144-pin BGA (enables MP3 encode)
- STMP3550L 100-pin QFP
- STMP3560L 100-pin QFP (enables MP3 encode)
- STMP3650B 169-pin BGA
- STMP3660B 169-pin BGA (enables MP3 encode)

DEVELOPMENT TOOLS

• STMP3500

— The STMP3500 Software Development Platforms ship with Altium® Professional Services Tasking software as well as a BoxView™ DSP debugging toolkit provided by Domain Technologies. The STMP3500 Software Development Platforms contain the following items:

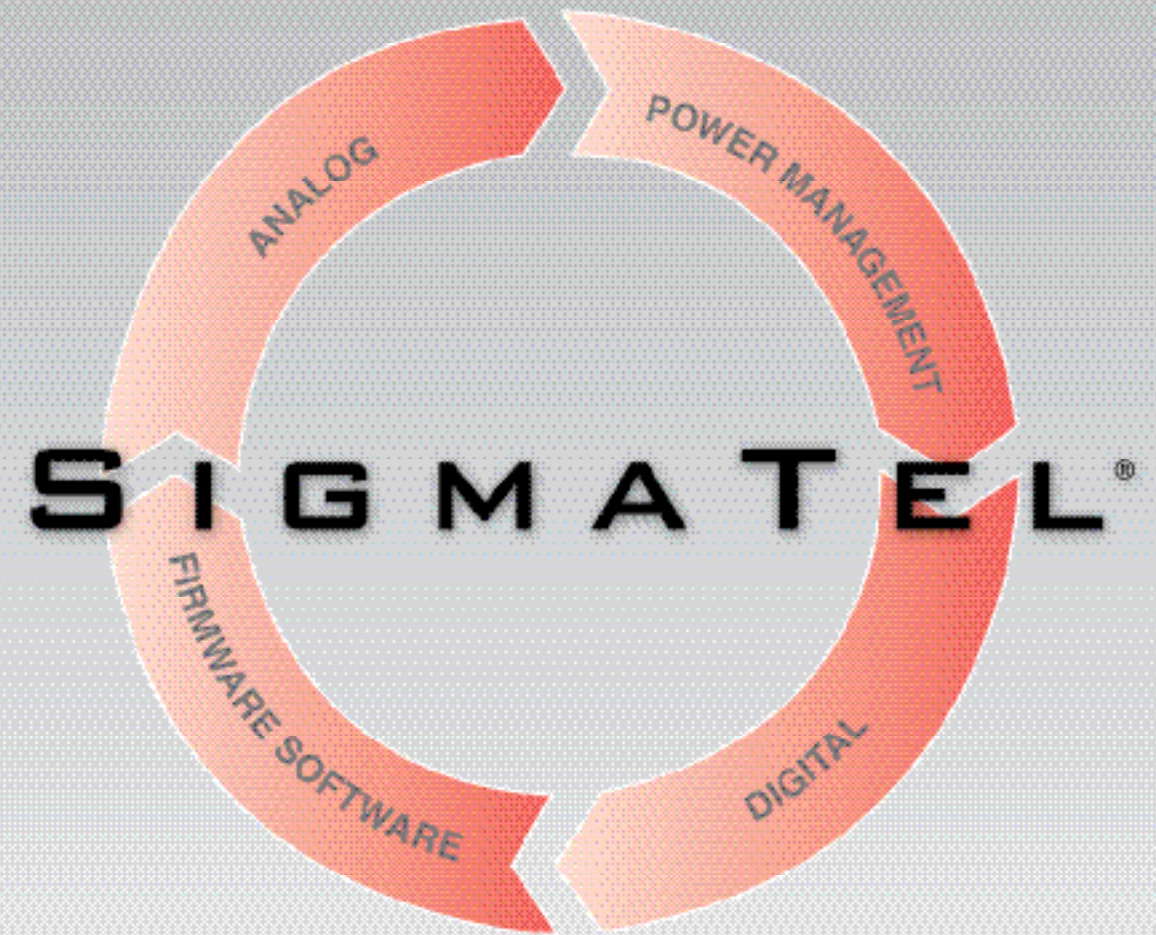

- Tasking software
- BoxView debugger software CD
- C Compiler User's Guide
- BoxView SB-USB emulator box
- 1 USB cable
- Assembler Linker and Utilities User's Guide
- User reference documentation
- 1 OnCE connector and multipurpose screwdriver

• STMP3600

— The STMP3600 Software Development Platforms ship with Green Hills® software and hardware tools.

The STMP3600 Software Development Platforms contain the following items:

- MULTI® Integrated Development Environment which includes:
 - Source level debugger
 - Project builder
 - Event analyzer
 - Graphical browser
 - Text editor
 - Version control system
- ThreadX® Real Time Operating System
- Slingshot™ Hardware Debug Device
- User reference documentation, USB cable and multipurpose screwdriver
