

Connection directly to your DVR

Connecting your camera to your DVR (DVR is not included):

1. Locate the 60 ft. BNC cable, power adapter, 4-way splitter and the camera.
2. Locate the end of the 60 ft. BNC cable labeled "TO CAMERA".
3. Connect the yellow BNC adapters on the 60 ft. BNC cable to the yellow BNC adapters on the camera.
4. Connect the red power adapter on the 60 ft. BNC cable to the red power adapter on the camera.
5. Locate the end of the 60 ft. BNC cable labeled "TO DVR".
6. Connect the yellow BNC adapter on the 60 ft. BNC cable to channel input on the back of the DVR.
The channel inputs are labeled by number.
7. Connect the red power adapter on the 60 ft. BNC cable to one of the male ends on the 4-way power splitter.
8. Connect the 4-way power splitter to the power adapter and plug into a wall socket, surge protector or security battery backup (Please keep in mind, the surge protector or security battery backup are not included).
9. Your camera is now connected and is ready for use.

NOTE: Connect the camera and cable to the DVR before mounting to ensure that they function properly.
