Wireless Converter

4 Channel

Transmitter & Receiver

Make any security camera wireless

Do away with the cables between wired security cameras. Use the Wireless Converter to transmit any video signal on powerful 2.4GHz up to 100m / 330 feet.* Perfect for 'hard to get to' locations.

Use with any wired camera (not included):
Including Swann C500, C510R, OutdoorCam, Bulldog, Bullet Cam & more.

Technical Specifications

Frequency: ISM 2400 - 2483MHz 4CH
Channels: CH1=2414MHz
CH3=2450MHz
CH2=2432MHz
CH4=2468MHz
Transmission Power: 10mW CE, 2mW FCC
Modulation Mode: FM
Bandwidth: 18MHz
Current Consumption: 50mA (MAX)
Operating Temperature: -10°C - 50°C
14°F - 122°F

Storage Temperature: -30°C - 60°C
-22°F - 140°F
Weight: 25g
Wireless Range: Up to 100m (330ft)

Package Contents

1 x Power Cable
1 x AV Cable
1 x Power Adapter
1 x 2.4GHz Receiver
1 x (F) BNC to (F) RCA Adapter

Use with any Swann wired camera:
