Quick Connection Guide Using One Touch Dial

For details on operations, refer to the Operating Instructions.
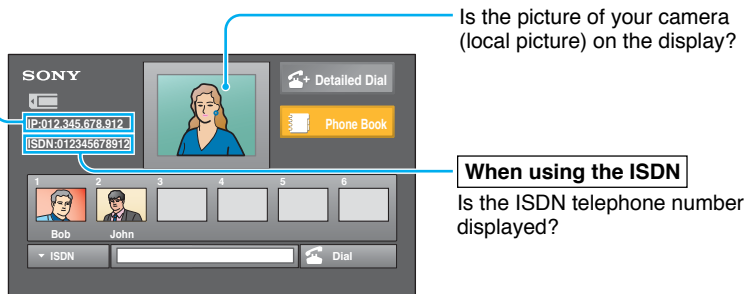

To begin with

Turn on your Video Communication System, and check the following to ensure that connection is possible.

Is the picture of your camera (local picture) on the display?

When using the LAN
Is the IP address displayed?

IP:012.345.678.912
ISDN:012345678912

When using the ISDN
Is the ISDN telephone number displayed?

Note: Connection to a remote party is impossible if neither the IP address nor ISDN telephone number is displayed.

Main indicators that appear during communication

|	
FAR	Controlling a remote camera
MIC OFF	Local microphone is cut off
(icon)	Sending a still image
(icon)	Receiving a still image
(icon)	Sending or receiving an image of a computer
(icon)	Receiving data of a whiteboard

After checking...

Let's connect
