

DF-WW9106F, DF-WW9120F – Fixed-Frame Screen

WHITEWOLF™

Professional White 16:9 Fixed-Frame Screen with 1.3x Gain

New Innovative Reflective Screen Technology

The WhiteWolf fixed-frame screen is designed to optimize and deliver amazing HD images for ceiling mounted applications. The fine screen texture allows for a sharp, high resolution image display. With the special 1.3x gain reflective coating, pictures are vibrant and clear while the effects of ambient light are minimized creating a superior viewing experience. The frame is sturdy yet stylish with its lush velvet finish and will complement the most contemporary home theatre décor or corporate environment.

Features

- Vibrant, high-contrast images
- Special 1.3x gain reflective coating
- 16:9 aspect ratio creates theatre-like experience
- Installation is quick and easy
- Compatible with DLP and LCD projector technologies
