TECHZONE™ Ceiling System

Air Diffusers

Armstrong® TechZone™ Compatible

Modulinear™ Diffuser

Catalog No.s:

ML-TZ-LT-9/16" and 15/16" Lay-In

ML-TZ-DF-15/16" Tegular

ML-TZ-NT-9/16" Tegular

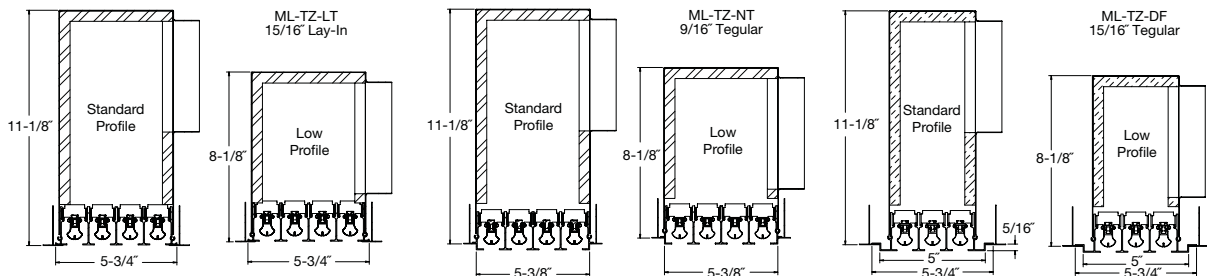

The Titus Modulinear TZ series is a high-performance, high-quality slot diffuser. The TZ series is designed to easily integrate into the Armstrong's TechZone ceiling grid system providing a customized and aesthetically pleasing look with standard components.

Modulinear TZ series diffusers are available in 1, 2, 3 and 4-slot configurations in several lengths. The unique, aerodynamically curved "ice tong" deflector blades allow both changes in air volume and direction from the face of the diffuser. This versatile diffuser is an excellent choice for variable air volume applications.

The Modulinear TZ series is designed to fit standard Lay-In and Tegular ceilings.

Modulinear Diffuser

ML-TZ-LT
Lay-In
9/16" and 15/16" T-Bar
