TECHZONE™ Ceiling System

Recessed Fixtures

TZ5

48" and 60" Lay-in and Tegular Fixtures for 9/16" and 15/16" Grid

The TZ5 applies the Volumetric Lighting principal to the Tech Zone. It creates shadow-less lighting with controlled high angle brightness. The result makes spaces more attractive and facial features more well-defined and lively. The diffuser is an extruded flat lens backed with an optical overlay designed to control brightness in both perpendicular and parallel views. The TZ5 is available in lay-in or tegular ceiling versions engineered to complement the TechZone ceiling system.
