

These installation instructions are valid with the above Ametrix styles.

Small, OUTDOOR P1R

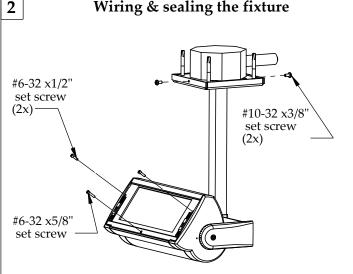

(Pendant, 1-way, Remote ballast) **Visor and Non-Visor**

Warning: Before starting any work ensure that all sources of power are turned off. All work must meet local/national codes and be performed by a certified electrician. **Do not** mount fixtures vertically.

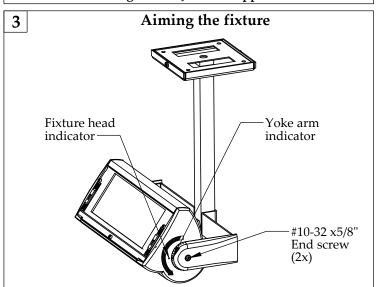

- yoke on pendant and run wire through compression fitting and into pendant.
- 2. Remove both #10-32 x3/8" set screws and allow canopy to slide down pendant.
- 3. Run wires from pendant and j-box through wiring holes in mounting plate.
- 4. Using appropriate fasteners, secure fixture to ceiling. Use additional bracing around J-box to support fixture.

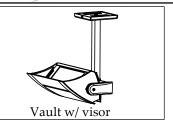

- 1. After securing fixture to ceiling, attach appropriate wires and ensure all connections are properly matched. Push wire connections into j-box and cover mounting plate
- with canopy. Secure canopy using both #10-32 x3/8" set screws.
- 4. To seal door, refer to torque sequence supplementry page.

- 1. To aim fixture, loosen both #10-32 x5/8" end screws. When both indicators are lined up, the slope of the lens face is 40degrees. Each subsequent notch is an additional +/- 10degrees
- 2. When fixture head is rotated to desired angle, retighten end screws to secure the position.
