- Removable/ replaceable

Product highlights

Record vital information

If your child has wandered off and needs help to find you, it's reassuring to know that he or she has vital contact information at the touch of a button.

Digital Recording of info

Digital voice recording provides a quick, secure and easy way to record the essential contact details that may save valuable time if you should ever inadvertently lose sight of your child.

Easy to attach to your child's clothes

To make sure it is always with you but out of the way.

Protected against accidental over-recording

Requiring a sharp pencil to be inserted into a small hole to activate recording, it's virtually impossible for your child to erase, change or over-record your digital message of essential contact information.

Complies with toys standard

The products that comply to the toys standard have been thoroughly tested to ensure they meet these norms and are totally safe.
