5435 - 1.5' x 4'

DESCRIPTION

Metalux Residential is launching a new and improved softside/acrylic cloud called the Tuff-r-Puff! The new Tuff-r-Puff utilizes a new lens technology called the Dur-illumine 2200. This new technology eliminates breakage when using acrylic lens. The Tuff-r-Puff offers a floating appearance that compliments any décor with full, low brightness illumination. The soft floating profile of the frameless diffuser provides an appearance that is in tune with today's residential and commercial environments.

With a wide variety of modular shapes and sizes, there is a Tuff-r-Puff fixture for virtually every space and decoration possibility. The fixtures add the right touch to the kitchen, den, living room, bathroom, office or recreational space.

DECORATIVE SOFTSIDE SERIES

Decorative
2 or 4 Lamps

RESIDENTIAL SURFACE
MOUNTED DECORATIVE
FLUORESCENT

- New lens is naturally resistant to color shifts when exposed to UV typical of fluorescent lamps (lens will not yellow)
- New lens will eliminate the transit, handling and installation damage characteristic of the delicate Puff lighting diffuser.
- The new white clips eliminate existing shadows while reducing sharp edges and promoting safe handling.
- Energy Saving Fluorescent lighting.
- Soft floating opal white acrylic diffuser
- Lift and shift diffuser for easy installation
- Elegant molded end caps and matte white diffuser (some models)
- Soft illumination
- Available with Energy Star qualified electronic ballasts⁽³⁾
- Heavy gauge steel housing with baked white enamel finish
- Uses two or four fluorescent lamps (not included)
- Suitable for damp locations
- UL/CUL Listed
