 - 2" Output shaft
 - Shear-pin protection
 - 6", 9", 12" augers
 - 30" Auger length
 - 45" Boom length
- Options**
- Auger alignment handle
 - Hydraulic down pressure kit
 - Storage stand
 - 7" & 14" Auger Extensions

Our 10 and 15 Series Post Hole Diggers are sized just right for sub compact and compact tractors. Suited for fence building around the homestead or light landscaping in town, these utility diggers can dig hole after hole and not get tired! The auger, gearbox and driveline are protected from tough ground by a shear bolt breakaway

in the driveline. The 2 7/8" tubing used for the yoke and boom can handle any torque load the auger can deliver.

Which Post Hole Digger is right for you?

SUGGESTED HORSEPOWER

10 SERIES	15 SERIES	25 SERIES	35 SERIES
15-30 HP	20-40 HP	PTO = 25-55 HP Hyd = 5-10 gpm	PTO = 30-75 HP Hyd = 10-25 gpm

Our Post Hole Digger storage stand helps you attach and remove the digger from the tractor in a more efficient manner. Manhandling a Post Hole Digger by yourself is next to impossible. With our innovative Post Hole Digger stand, one person hook and unhook becomes a reality!

PD15 SERIES

20 - 40 HP

5 year
