Features

- Extension Stem:** 5/8" diameter steel tubing 48" long (two provided with 4SXT96 Series extension kits.) See above for finishes.
- Coupling:** Threaded coupling provided with 4SXT96 series extension kits to attach two 48" stems together.
- Wiring Harness:** Male connector with three 18 AWG conductors (120" long).
- Hex Nut:** Two provided for attachment to suspension plate.
- Lock Washer:** Two provided for attachment to suspension plate.
- Drill Locator:** To assist in reinstalling 1/8" diameter hole in stem when stem has been field cut. Patent pending.
- Allen Wrench:** 5/64 allen wrench provided to install swivel ball (provided with standard suspension systems) to a field cut stem.

Note: For all 4SB1XXXX single stem kits, extension stem replaces original stem. For all other kits, extension stem replaces short section above collection point.
