Features

- Reflector:** Hydroformed aluminum, .040" thick, (18 ga.); Anobrite® (anodic-processed) semi-specular finish for permanent reflectivity; matte white trim flange.
- Step Baffle:** Die cast aluminum with stepped conical surface for low brightness, matte black or matte white finish.
- Aperture Plate:** Semi-circular; die formed steel; matte white or gloss white; spin locked to step baffle; snaps out with step baffle and scoop reflector by means of concealed retaining springs for relamping.
- Scoop Reflector:** Hydroformed aluminum, .040" thick (18 ga.); Anobrite® (anodic processed) semi-specular finish for permanent high reflectivity; provides an even wash of light over wall surfaces without scallops or shadows.
- Frame-In Kit:** (1002P1 standard frame shown). Other frames listed above and shown.

Options & Accessories

- Retaining Clips:** 1955 - For Installing in Existing Ceiling
Extra Wide Flange Trim Ring: 1957 - 7" O.D.

LIGHTING DATA

EXAMPLE: Multiple units with 75W BR30 FL lamps, located 2' from wall and 2' on center, provide illumination on the wall 3' down from the ceiling of 18 f.c. beneath and 17 f.c. between the fixtures.

FOOTCANDLES ON WALL FROM MULTIPLE UNITS

		60W A19					
		UNITS 2 FEET FROM WALL			UNITS 3' FROM WALL		
		□	— 2' —	□	□	— 3' —	□

	7	5	5	5	4	4	4
	8	4	4	4	3	3	3
	9	3	3	3	3	3	3

Footcandle values are averaged and rounded off and are based on a minimum of five units.
 For fixture-to-wall distances, other than those shown, use maximum of 1 of 1 spacing (distance between fixtures not more than distance to wall) for best result.
 To convert lighting data for a lower wattage incandescent lamp of the **same type**, multiply the footcandle values by the ratio of the lumens of the two lamps.
