

READ AND UNDERSTAND THESE INSTRUCTIONS BEFORE INSTALLING FIXTURE

This fixture is intended for installation in accordance with the National Electrical Code and local regulations. To assure full compliance with local codes and regulations, check with your local electrical inspector before installation. To prevent electrical shock, turn off electricity at fuse box before proceeding.

Retain these instructions for maintenance reference.

INSTALLATIONS FOR WALL MOUNTING MONOPOINT PIN-UP

IMPORTANT SAFETY INSTRUCTIONS

This product has a polarized attachment plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted. Do not attempt to defeat this safety feature.

CAUTION - INJURY TO PERSONS AND DAMAGE TO THE LAMP AND/OR MOUNTING SURFACE MAY RESULT IF THE LAMP IS PULLED FROM THE SURFACE. TO REDUCE THE LIKELIHOOD OF SUCH INJURY OR DAMAGE, MOUNT ONLY ON A SURFACE THAT IS MECHANICALLY SOUND.

1. Locate MOUNTING PLATE in desired location and mark holes with pointed tool to start screws (top edge of bottom clip opening is center of MONOPOINT PIN-UP). See Fig. 1.

2. Screw MOUNTING PLATE to wall using screws supplied.

NOTE: a. It is best if screws are installed directly into a stud behind wall.

b. MOUNTING PLATE can be mounted directly on sheet rock, provided screws are not over-tightened.

c. If mounting surface is other than sheet rock (brick, concrete, laminated building materials or the like), toggle bolts or plastic anchors should be used.

3. After MOUNTING PLATE is installed, clip on MONOPOINT PIN-UP as shown in Fig. 2 and plug into nearest outlet.
4. Install lighting unit as per instructions supplied.
