

NEW VISIONMOUNT® RECESSED IN-WALL BOX

New Recessed Box Holds Full Motion Wall Mount Recommended For Medium To Large Flat-Panel TVs From 23" to 50"

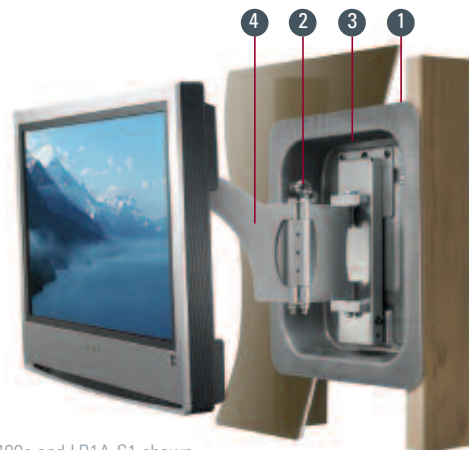

Our new recessed in-wall box was specially engineered to allow a flat-panel TV to rest nearly flush against the wall, so the mount and hardware are hidden. The LR1A is easily installed and supports VisionMount VM400 and LRF118 wall mounts to hold virtually any flat-panel TV from 23" to 50". Available in black, silver or paintable white finish and features heavy-gauge steel construction for extra strength.

NEW VISIONMOUNT® RECESSED IN-WALL BOX

The new LR1A recessed box allows a TV to be flush to the wall, so it hangs like a picture.

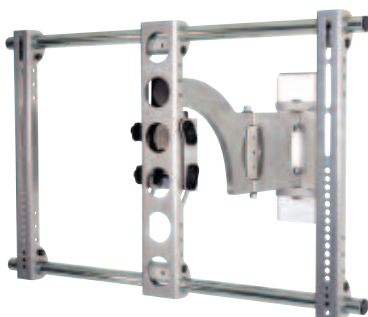

1. Cut a hole in the sheetrock between 16" center studs and set the LR1A inside.*
2. The finger-adjustable Quick Shims allow you to easily position and level the box and then secure it in place using provided hardware.
3. There are cutouts for signal and power cables on top and bottom, plus it's available in silver, black or paintable white to match any décor.
4. Once the LR1A is in place, choose a full-motion mount (model LRF118 or VM400) that fits your TV.

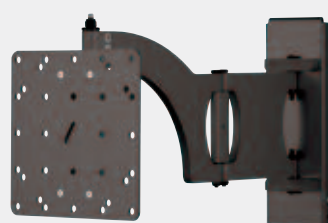

Models VM400s and LR1A-S1 shown

* Safety note: Ensure electrical wires or piping do not run within hole to be cut.
