

ULTRA

ARM Articulated Arm for LCD Monitors

Sleek design, unique strength.

At long last! An articulated arm for LCD monitors that combines the astonishing strength of alloyed aluminum, remarkable range of motion, and a stylish ultra-modern design. You won't find its equal anywhere else in the industry. Ultra secure! And strong enough to hold monitors weighing up to 20 lbs.

Place your monitor exactly where you want it -- safely above your desk or on the wall. Industrial-strength alloyed aluminum construction ensures smooth, vibration-free extension. These Ultra Arms are available with both 75mm and 100mm VESA brackets. Protected by our Limited Lifetime Ultra Advantage Warranty (registration required). Perfect for the professional environment. Priced for superior value. Isn't it time to free up your valuable space for streamlined efficiency?
