COOPER LIGHTING - METALUX®

DESCRIPTION

The staggered striplight accessory reflectors are designed to add function and flexibility to the SSL staggered striplight series. These durable accessory reflectors are designed to interface easily with the respective striplight housing to provide directional control.

The staggered striplight accessory reflectors are perfect for cove, cabinet, display and other directional striplight applications where staggered striplights are used to eliminate socket shadow.

## SPECIFICATION FEATURES

A ... Construction
Reflectors are precision formed of code gauge prime cold rolled steel.

B ... Finish
Multistage iron phosphate pretreatment ensures maximum bonding and rust inhibition. High reflectance lighting grade baked white enamel finish standard. Specular silver finish optional.

C ... Mounting
The staggered striplight accessory reflectors are positively secured to the striplight housing and replace the channel cover. Each accessory matches the length of the housing to which it is to be mounted to provide an uninterrupted reflector when used in continuous rows.

See below for dimensions of each configuration.

Staggered Striplight Accessory Reflector
