TravelMate 5740/5740G Series

How does the Travelmate 8471G achieve all day battery life^?

Acer designed the Travelmate 8471G series to be the most power efficient notebook on the market from the ultra-low-voltage processor to its magnesium alloy chassis that improves durability & dissipates heat more effectively. To conserve power consumption the Travelmate 8471G features a mercury free

14" LED backlit LCD panel & ATI switchable graphics which intelligently switches between onboard & discrete graphics. To compliment the components which make up the Travelmate 8471G Acer ePower management comes preinstalled allowing users to customised their own power schemes for AC & DC power. The end result for the end-user is over a 40% more efficient notebook in comparison to traditional notebooks.

^Disclaimer: 8+ hours battery life for the Aspire TimelineX. Actual battery life varies by usage, settings, and operating conditions. For MobileMark 2007 productivity benchmark visit: acer.com/tlx_test

Aspire 1820PT

The Aspire 1820PT features a special convertible design that allows you to use it as a photo frame, portable cinema or the perfect presentation tool. You can also fold it up like a notepad to take notes, read ebooks or navigate maps. Smaller than a magazine, the Aspire 1820PT still offers total usability via its Acer FineTip full size keyboard with larger keys for better typing.
