

Speak their Native Language –Technology

Dive Right into Learning

Students absorb concepts better when they can hear, see and touch them. Eliminate distractions and dive right into your lessons with the FXDUO interactive whiteboard. Use your finger or a stylus to easily navigate through activities, websites, and multi-media content that connects with today's digital learners.

Create Opportunities

Transform lessons into creative opportunities to inspire imaginations with a library of interactive tools that allow you to make notes, draw diagrams, and illustrate your point with digital ink. Call on two students to collaborate on the board simultaneously with the FXDUO's multi-touch technology.

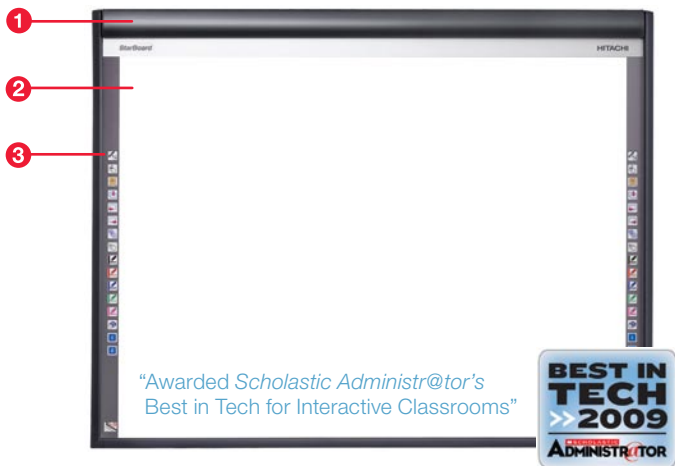

Designed for Education

The FXDUO is powered by the StarBoard Software, a dynamic set of teaching and lesson building tools designed for educators. Also, provided with every FXDUO is RM Easiteach educational software, an award winning interactive learning resource.

“Hitachi’s FXDUO lets two students work on the whiteboard at the same time, a feature that teachers really value.”

– Scott Hill, Vista Unified School District

Features

- 1 Replaceable top sensor
- 2 Active whiteboard area
- 3 Software shortcut buttons

Dimensions

MODEL	AREA (diagonal)
FXDUO-63	63"
FXDUO-77	77"

Key Benefits

- Control using multi-touch
- Responds to fingers and pens
- Allows for 2 simultaneous users
- Electronic-free surface
- 14 software shortcut buttons
- All electronics in replaceable sensor
- Import Microsoft Office files
- Hand writing recognition
- Variety of digital inks
- Export notes to various file formats
- Educator resources and content
- Search engine integration
