

Satellite Pro A200 SE/GE

Stylish professionalism

Toshiba notebooks combined with Windows Vista, the next-generation operating, gives you the best in innovative mobile computing.

The Satellite Pro A200 is the right choice when it comes to style, performance and value. With its 15.4" widescreen Toshiba TruBrite® display, integrated webcam and the latest Intel® Centrino® Duo processor technology, it is designed to deliver maximum efficiency and mobility. State-of-the-art graphics, comprehensive wireless connectivity and multimedia functionality come together to serve the business needs of small and medium sized companies. Toshiba EasyGuard's improved features provide a better, more reliable and more secure mobile computing experience.

Satellite Pro A200 SPECIAL EDITION (SE) models include all the fantastic features of the Satellite Pro A200 PLUS a built-in 1.3 megapixel Webcam, Intel® Turbo Memory (on selected models) and Bluetooth.

The Satellite Pro A200 GRAPHICS EDITION (GE) models have everything the SE models have to offer combined with leading edge dedicated ATI graphics.

Boost efficiency

- Get increased system responsiveness, faster multitasking and extended battery life with Intel® Turbo Memory, featuring efficient flash memory.

Simply connect

- Connect the convenient way with ConfigFree™ for diagnosis, instant connections and location profile creation for future use.

Make yourself heard with Video/Voice over IP

- The integrated webcam and microphone with echo/noise cancellation enables high-quality, real-time voice and video calling over IP-based networks.

Smart viewing

- Enhance working productivity and give presentations more effectively with a wide array of display options, including dual display and digital support.

Integrated webcam: get video conferencing on the go

15.4" Toshiba TruBrite® widescreen display: for brighter images and more productivity

Mobile style: set the trend with this unique notebook design

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modelling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba website: computers.toshiba-europe.com and/or contact Toshiba Technical Support. For PC's configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. One GB means one billion bytes. Battery life may vary depending on applications, power management settings and features utilised. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba websites at computers.toshiba.nl or computers.toshiba.be. Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. Intel, Intel logo, Intel Inside logo, Intel Centrino, Intel Centrino logo, Celeron, and Pentium are trademarks or registered trademarks of Intel Corporation or its subsidiaries in the United States and other countries. Windows, Windows Vista and the Windows logo are trademarks or registered trademarks of Microsoft Corporation in the United States and/or other countries.
