

TOSHIBA

Satellite M100

Perfect for widescreen multimedia on the move.

14.1" widescreen display !

Exceptional performance in a sleek, light design

- This dynamic-looking notebook comes in a sleek, light design weighing just 2.46 kg
- Enjoy breakthrough entertainment thanks to the Intel® Core™2 Duo Processor with its enhanced multitasking capabilities and future-proof 64-bit technology
- Improved mobile performance with high-capacity, high-speed Serial ATA hard disk drives and support for up to 4 GB of DDR2 667 MHz Dual Channel memory

Brilliant digital entertainment

- Exceptional 14" WXGA TFT widescreen display enables users to view content on a larger viewable area as well as enjoy DVDs in all their widescreen glory
- The difference is clear with the Toshiba TruBrite® display for greater brightness and amazing picture quality

- Enjoy WMV High Definition movies and content with "HD to go" from Toshiba*

Multimedia on the move

- Choice of Mobile Intel® 945GM Express chipset and ATI Mobility™ Radeon® X1400 graphics technology with 512 MB HyperMemory™
- Select from the best in advanced multimedia technologies, including outstanding virtual surround audio with SRS® sound technology and Harman Kardon® stereo speakers*

All-in-one convenience

- The Express Media Player* enables instant-on access to CD/DVD playback without booting the system
- 5-in-1 Bridge Media slot makes it easy to transfer digital content in a wide range of formats
- Integrated DVD Super Multi drive (Double Layer) for up to 8.5 GB of data storage, multimedia recording and playback of CDs and DVDs

Easy connectivity

- Enhanced mobility with Toshiba ConfigFree™ software for simplified wireless and wired connectivity
- Toshiba Summit software to increase productivity, featuring efficient wireless conferencing functionality – including file sharing and chat
- Built-in Wireless LAN, Bluetooth® 2.0 with EDR (Enhanced Data Rate), modem and Ethernet LAN, plus i.LINK® port to allow easy transfer to and from digital devices

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • SRS® TruSurround XT™ is only available for WinDVD applications. SRS® WOW™ is only available for Windows Media Player 9 in standard Windows interface. Please check your system specifications to ensure optimal results. • Microsoft® Office OneNote™ 2003 is not available in all countries. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis. • Not all Windows Vista features are available for use on all Windows Vista Capable PCs. Check: www.windowsvista.com/getready for details.
