PORTÉGÉ M800

Portability and style optimized.

The new ultraportable Toshiba PORTÉGÉ M800 is a stunner! Encased within a unique Horizon Line design with the new Fusion Finish, the PORTÉGÉ comes with a 13.3" high resolution Clear SuperView screen, and weigh less than 2kg to provide exceptional mobility.

SmartFace™ Technology

With SmartFace™ technology, simply scan your face with the Webcam to log-on to your notebook! It also recognizes multiple users and logs on to the Windows operating system without requiring users to remember and type a single password – great for families who may share one notebook.

USB Sleep-and-Charge Ports

The PORTÉGÉ M800 can do it in its sleep, thanks to USB Sleep-and-Charge support. It's the easiest way ever to charge your smart phone, MP3 player or other portable electronics, even when your notebook is turned off.

13.3" Clear SuperView screen

See more with a high definition (WXGA 1280 x 800 pixel resolution) and high brightness (200NIT) screen.

Built-in FM Tuner

Enjoy your favourite radio stations with the built-in FM tuner

EasyGuard.  **Easy Life.**

 PROTECT & FIX  SECURE  CONNECT  OPTIMIZE

The new PORTÉGÉ M800 is equipped with selected Toshiba EasyGuard technology, an exclusive set of tools developed by Toshiba to give you a better, more reliable mobile computing experience.

Fingerprint Security Suite

Fast and convenient fingerprint password authentication for all system passwords. (BIOS, HDD and Windows)

3D Hard Drive Protection

A 3-axis monitoring system dynamically detects free falls, shock or vibration in all directions and rapidly moves the drive head in preparing for impact, hence protecting your data.

ConfigFree® Wireless Radar

ConfigFree® provides hassle-free, location-based connectivity for wired / wireless networks and Bluetooth devices for an enhanced mobile communication experience.

Options & Accessories

Toshiba DataLink

Simply use the Toshiba DataLink, to link two notebooks together with USB ports and to transfer data between them at up to USB2.0 speeds – no drivers or installation required! Compatible with Windows 2000/XP/Vista.

Toshiba dynadock Universal Docking Station DVI

Expand your notebook connectivity with the Toshiba dynadock Universal Docking Station. This stylish docking station comes with six USB ports, DVI-I/VGA, S/PDIF for 7.1 surround sound, and more!

Toshiba Slipcase

Carry and protect your brand new notebook in this slipcase. Fits most 13.3" and 14.1" notebooks

Li-Ion Battery and Power Adapters

Don't be caught without power – keep spare Li-Ion batteries and power adaptors handy

Power Adaptor: PA3468E-1AC3
6-cell Li-Ion Battery: PA3634U-1BAS
9-cell Li-Ion Battery: PA3636L-1BAL

Pala-chan Memory Pack

Store your data with this cute Pala-chan USB Flash Drive (2GB). Also includes a Papu-chan microSD™ Card Reader

* Depends on models & configurations

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: <http://pc.toshiba-asia.com> and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba website <http://pc.toshiba-asia.com> • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • Please check your system specifications to ensure optimal results. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis.
