

TOSHIBA

Satellite A100

Versatile performance for today's digital lifestyle.

Designed for high-performance mobility

- Intel® Celeron® M processor offers the perfect balance of high-performance mobile processing technology and exceptional value

Astonishing video entertainment

- Excellent 15.4" WXGA TFT 16:10 widescreen display for the home and office environment
- Featuring Toshiba TruBrite® technology for extraordinarily sharp, bright images in rich contrast and brilliant colour
- Enjoy superlative multimedia and graphics with a choice of ATI graphics chipsets

Increased reliability and productivity

- Equipped with a spill-resistant keyboard to give the user sufficient time to save data and shutdown the notebook in the event of an accidental spill
- Move between various work locations with greater ease using pre-installed Toshiba ConfigFree™ software for simplified wired and wireless network connectivity, plus the ability to switch location profiles and settings as needed
- Bundled Microsoft® Office OneNote 2003™ offers the flexibility of a paper notebook and the power of digital note-taking

Wide range of connections

- Wireless LAN
- 10/100 Ethernet LAN port
- International V.90 modem (V.92 ready)
- i.LINK® (IEEE1394) port
- 4 USB 2.0 ports
- TV-out port

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modelling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • Microsoft® Office OneNote™ 2003 is not available in all countries. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis.
